

Postmaster Quits Job, Shoots Clerk And Selts to Death

L. S. Peterson and Money Order Clerk 'Go for Ride' in Coffee County Sunday, Letters Explain.

PURSUING OFFICERS FIND BOTH IN ROAD

Accused Slain Clerk of 'Getting' His Job Which He Had Held 16 Years Under Both Parties.

Douglas, Ga., April 1.—(Special)—L. S. Peterson, postmaster for the last 16 years, Sunday shot and killed J. E. Kirkland, his money order clerk, and then turned the pistol on himself and ended his life.

The shooting occurred on the West Green road, about two miles from this city. Both men were found dead in the middle of the road a few minutes after the tragedy by Chief of Police Bob Barrineau and S. M. McCrane, who had word of the impending shooting and were in pursuit of the men.

Kirkland's body showed three bullet holes, one through the arm and into the body and the other two in his body's bony region toward the heart.

A coroner's jury, after investigating the killing, found that Peterson killed Kirkland and then committed suicide. There were no eye witnesses to the tragedy but Peterson left some letters, one to his brother, J. H. Peterson; one to his wife, one to his close friend, F. F. Preston, and two in his pocket addressed to himself.

The one addressed to his brother was opened and read at the inquest. It stated in substance that Kirkland had reported him for some slight irregularities in the postoffice, and that Kirkland and one other person had "sooted his job" and that he "could not stand it."

Peterson is survived by his wife and three children and Kirkland is survived by his wife only, who died for her own children, also Maude Gober, of near Gainesville, Ga.

Facts developed at the inquest from the letters left by Peterson and from friends in close touch with the situation show that for several months there had been friction between Postmaster Peterson and his younger brother, J. H. Peterson, and that Peterson had accused Kirkland of reporting some slight irregularities in the conduct of the office to the postoffice department, which caused an investigation, although it was not generally known in Douglas.

The result was that Peterson resigned and Lucy L. Sutton was named as acting postmaster and was directed in a telegram to take charge of the office and relieve Peterson at 9 o'clock this morning.

When Sutton appeared to take charge and was sworn in by Assistant

COUNCIL MEETING FACES MANY VITAL PROBLEMS TODAY

Grady Hospital, Viaduct Bids, Couch Probe, Junior High Schools, Issues on Schedule.

City council today will be confronted with several of the most important problems which have come before that body during the past year. A stormy and prolonged session is slated on the following:

1. A proposal by Councilman James E. Bowden of the fifth ward, to turn administration of the white unit of Grady hospital over to Emory University in an effort to obviate future factional rows and in answer to a popular demand that some change be made to divorce the institution from politics.

2. Opening of bids on the Pryor street and Central avenue viaduct superstructures. After the bids are opened and announced they will be referred to the bridge committee of city council for recommendation. This committee is headed by Alderman W. Guy Dobb.

3. Introduction by Councilman W. E. Saunders, of the twelfth ward, of a resolution to extend the scope of the investigating committee probing charges against Alderman J. Allen Couch to include all expenditures of bond money. The Couch probe committee the right to delve into all transactions, will hold another session at

EARTHQUAKE KILLS SIXTY IN SMYRNA

Sky and Sea Produce Fearsome Phenomena as Earth Trembles and Inhabitants Pray.

Constantinople, April 1.—(P)—Terifying phenomena accompanied the earthquake which shook Smyrna to its foundations yesterday, according to reports received here. The latest estimates place the number of dead at 60, all Turks.

Witnesses of the disaster say there was a play of celestial electricity shortly before the first shock. The waters of the sea near the shore rose and whirled and receded as if boiling over a hot fire in an open kettle. Terror-stricken inhabitants of the cities and suburbs fell to their knees in prayer.

Then came silence. Next a tremendous roaring rumble was heard, greater than thunder. The earth quivered a moment, then shook and fairly rocked. This was the first shock. Eight others followed at short intervals.

Complete reports have not been received from the country districts, but the damage was widespread and heavy. In one village a single family of five was killed when their home collapsed.

In Smyrna the quake seemed to be the most severe in the sections where the most costly buildings stood. Two bank structures tumbled into ruins. Four schools were demolished as well as virtually all of the best shop buildings that have been erected since the great fire of 1922.

The population of Smyrna is pouring into the streets, many of them in scant attire, still fearing to enter homes which are skeletons of their homes for clothing.

Constantinople, April 1.—(P)—Casualties have been reduced to a remarkable degree.

"In the regular air mail operation," the letter continued, "there was but one fatality to 1,413,381 pilot-passenger miles. In air transport operations, the ratio was 1 to 1,413,330."

"In order to fully realize the significance of this record, it may be stated that 1,414,330 miles equals 60 times the circumference of the earth at the equator."

The report added that "26 fatalities occurred in trans-oceanic racing, demonstration and test flying, and 21 to students attempting to return to the United States after a strictly commercial aerial service. The remainder of the fatalities, 110 in number, were attributed to aerial service operations."

Accidents Explained.

"Out of a total of 104 fatalities, the majority were caused by 80 per cent occurred in unlicensed airplanes, of the total of 681 licensed planes, 665 or 97.34 per cent operated through the year, flying millions of miles, without a single fatality."

"Inside of five years," the report predicted, "the number of fatalities will be increased to 1,500,000 pilot-passenger miles will soon be exceeded by all air operations."

9 FOREST FIRES IN SIX COUNTIES HIT ARKANSAS

4,000 Acres of Timber Already Consumed as Volunteers Make no Progress Against Blaze.

40 SMALL FIRES START IN STATE

"Back Fires" and Plows Fail To Check March of Flames Through National Preserves.

Hot Springs, Ark., April 1.—(P)—Despite efforts of scores of volunteers and service men nine disastrous forest fires tonight were sweeping through Ouachita National Forest reserve while more than 40 more fires were adding their list to the disaster. Approximately 4,000 acres of extremely valuable timber have been ruined and fighters were using every possible method to prevent the flames from reaching scattered farms out in the hilly reserve.

Attempts of the fighters to check the fires by "back fires" have been futile due to unfavorable winds. Several thousand men and women volunteers who would sweep towards and check the other fires, but to no avail.

A plan to break up the land with plows to check the spread was abandoned because of the hilly ground.

Fires were burning furiously in six national preserves.

Scott county was virtually covered by smoke Lieutenant Vermilyea, of the Arkansas National Guard observation squadron reported after flying over the forest. The flier has been ordered to patrol the area with headquarters at Waldron.

No casualties have been reported, but the Cold Spring district, seriously menaced by the fires, is thickly populated.

A force of 40 men assigned to the Fiddlersack mountain fire were exhausted by the long losing fight. All available men of the service have been assigned to direct the fire fighting in which volunteers are playing a prominent part.

Monday Final Day To Raise \$3,500 Fund

More Than Thousand Yet Needed for Unveiling Entertainment Costs.

With approximately \$2,000 to be raised to complete the \$3,500 necessary to permit the Old Guard, historic military organization of Georgia, to execute the invitations of Atlanta to other old military organizations the country over, to attend the unveiling, on April 9, of the statue of General Robert E. Lee on Stone Mountain, Atlanta today will have its final opportunity to underwrite the fund promised by the Fulton county commission, and held up under an injunction at 60, all Turks.

Witnesses of the disaster say there was a play of celestial electricity shortly before the first shock. The earth quivered a moment, then shook and fairly rocked. This was the first shock. Eight others followed at short intervals.

A subscription of \$125 to the fund by Mrs. Minnie Battle Allen, of Sharpen, Ga., was received Sunday by Joseph A. McCord, general chairman of the military entertainment committee of the Old Guard.

Invitations have been issued by the city of Atlanta to more than 30 military organizations over the country and ten of these already have accepted. And, unless the sun is raised today, it will be necessary to recall the invitations with the attendant embarrassment.

The Fulton county commission had promised the Old Guard \$3,500, as the absolute minimum set for expenses, and was about to pay over the money when a court injunction had the payment. At a special called meeting of the Old Guard, Mr. McCord explained the situation and it was decided to ask Atlantans and Georgians to underwrite the amount promised by the Fulton commission.

Among the bodies which already have accepted the invitation to attend

MAINE DEMOCRATS MAY BREAK AWAY FROM AL SMITH

Waterville, Maine, April 1.—(P)—A rift in a prospective 100 per cent Smith delegation from Maine to the democratic national convention to-night appeared imminent as Maine democrats were preparing to assemble here for their biennial convention on Tuesday.

Some party leaders were said to be marching their delegations against Mrs. William R. Pattenall, Maine member of the democratic women's committee for nine years, and an avowed candidate for delegate to the national convention. Object of the promising "dry," appeared based on her opposition to the candidacy of Alfred S. Smith, of New York, for the presidential nomination.

WEATHER FORBIDS ATTEMPT TODAY.

Dublin, Irish Free State, April 2.—(P)—(Monday).—Although the weather reports were more favorable at mid-night than for several days, they were sufficiently bad to enable the German plane Bremen to start its flight. The Bremen remained in its hangar, although weather conditions in Ireland are improving.

A general of detectives under Chief Captain Herman Koehl, pilot of the plane, and his companions, Baron Von Huenfeld and Arthur Spindler, are awaiting news of waiting. They said they will start Tuesday if conditions are at all suitable.

UTILITY INQUIRY REOPENS APRIL 11

Washington, April 1.—(AP)—The federal trade commission decided to resume April 11 its open inquiry into the public utility financing and at that hearing will go into recent charges against the Copley Press, Inc. of Illinois and California.

The investigation of the Copley interests was requested by Senator Norris, republican, Nebraska; who read the senate charges that the Copley papers were controlled by public utility interests. Commission investigators recently returned from an examination of the Illinois interests of the newspapers, owned by Ira C. Copley, head of the corporation.

At the hearing documents will be introduced from the files of the New York and Washington offices of the joint committee of national utility associations, the geographic divisional office of the National Electric Light association at Springfield, Ill. The Chicago office of the Illinois committee on public utilities, information, and affairs of the American association, where investigations have been for the past few weeks. Records from several other division offices of the National Electric Light association are being examined and if this work is completed in time the matter will be taken up at the hearing April 11.

Representatives of the various associations will be subpoenaed to identify the documents as they are entered and to give any other testimony required.

The commission recently requested the bureau of the budget to urge an appropriation of more than \$100,000 to carry on the investigation.

Sudden Death of Willis HOOVER NOT AIDED IN OHIO Brings General Sorrow

BY SAM W. SMALL,
Special Staff Correspondent.

Washington, April 1.—(Special) The sudden stroke that brought death to Senator Willis has spread profound sorrow through public and social circles of the capital. His fine character and his close association with all who knew him intimately.

As congressman, governor and senator he had won confidence and admiration from political associates and opponents alike. While his campaign for the presidency was not a success, he ran a good race, and his political career, though not as nationally famous as that of his predecessor, was an often expressed feeling that his remarkable fascination for the voting plain people might hold him eventually in a strong position before the party convention.

Before the party convention, however, death had cancelled all speculation regarding the stalwart and brilliant statesman. The effect on the Ohio political situation cannot yet be foreseen. Those who should know best believe that friends of the deceased will seek to keep the Ohio delegation off.

Hoover, who was challenging the senator's claims in his own state to the delegation's vote, Willis opposed Hoover principally because of the latter's internationalism and favor toward the League of Nations, which was in agreement with Willis. His death will hardly make Hoover more acceptable in Ohio.

Necessarily, growing out of the death of Senator Willis, arises curiosity concerning his successor, who will be appointed by the democratic governor, Donaldson. The death of democratic Senator Smith, who was the republican governor of Michigan to appoint Arthur Vandenberg, popular editor of the Grand Rapids Herald.

As senator ad interim and thus add to the republican side, but that gain will now be offset by an ad-interim democrat from Ohio. The belief is that Cyrus Locher, of Cleveland, will get the appointment. He is already a candidate to succeed Senator Fess, who comes up for reelection in November.

That temporary designation may mean that Governor Donaldson also may enter the senatorial race, now that the two seats of Ohio will have to be filled in November.

It seems certain already that extensive political maneuvering will be given the appointment for the good reason that he is one of the government's prosecutors in the oil lease cases. Senator Walsh and other democrats interested in seeing that cases pushed to verdicts in all oil lease cases will lay them off and out of court to delay them, will advise strongly that Pomerene be taken off them.

From a most reliable source it comes to me that before many weeks will be over, the administration will

hear WBBM, up in Chicago, Saturday night asking all its friends among the radio industry to write and wire the federal radio commission immediately that they wanted WBBM to stay on the air on its present preferred wave length and with its present power.

All of which brought to mind the charges which W. K. Henderson, down in Shreveport, La., at KWKL, has been making against WBBM interfering with KWKL, shooting up its power, getting off its wave and in general causing untold interference with the Louisiana broadcaster.

And that brought to mind a new order last week by which the radio commission increased KWKL's power to 5,000 watts and WBBM to 500 watts. Just wondering how WBBM will fare. We can see that each of the five radio zones will be allotted 110 stations and 110,000 watts of power.

As there are 855 stations, this will mean eliminating the weaker stations to be allowed to just about 100,000 watts less than now in use. So we can look for a grand shakeup of the broadcasting map, changes in wave lengths, fewer stations on the air and in power.

Just how revolutionary this will be depends on the radio commission. The commission fought the equal distribution amendment. It will be enforced against the pronounced desires of the commission. We will see how the commissioners, do this duty which congress has enforced upon them.

Decrease of power in the New York and Chicago districts seems a certainty. That is just what WBBM had in mind and just what WBBM is attempting to evade. Wonder what W. K. Henderson will have to say about it. This should please him.

WBBM is going into a new chain which is just forming we hear. Station KSTP, National Battery company, St. Paul went on the air Thursday, the first night of the new year of 2204 meters (1380 kilocycles) and it was announced that this station is working on the formation of a new chain, with WBBM the first member. KSTP is a new station.

All such will depend upon whether Governor Smith is nominated at Houston. If he is, the return trip to New York will be made through the heart of the south and will be the central figure in the broadcast map, located in the hotels and other broadcasting centers and learned the first names of all the members of the station staff. We hope our report will aid WLW to give us better reception, as this station is a favorite with us.

As we turn to KDKA for the Collier's hour (it is 7:15 o'clock Sunday night) we get a heterodyne whistle along with KDKA's wave. It is KOIL and it seems to us that KDKA has off the air. KOIL seems to be KDKA eliminates the trouble, however, by the simple expedient of stepping up its power and pounding in with loads of volume. Kinda feel sorry for anyone who wants KOIL though, it just can't be done this way right now.

Find that KMOX is coming in almost perfectly at 7:27 o'clock. This station has some interesting features on for Monday night. La Piana, violinist, comes on at 9:30 o'clock, with her Spanish accent, her South American and Spanish music, her guitar quartet, all from a Casino in Havana setting. Then the Bucaneers will follow at 9:30 o'clock with a novelty program from the Jammers, the Pirates and the rest.

Wishing the Southern much success in the future, and hoping that it will continue to be the best commercial school in the South, I am

Yours very truly,
ROGER D. JACOBS.

Established sixty-three years, endorsed by eight hundred out of every thousand businesses in Atlanta, accepted by the National Association of Accredited Commercial Schools, thereby placing the Southern in the front ranks of the very best business school of America, there is no wonder, then, that a very large majority of the young people in the other sections are from day to day, making their way to this popular institution to be prepared for business.

PIEDMONT TRUSTEES WILL MEET TUESDAY

Waycross, Ga., April 1.—The board of trustees of Piedmont Institute will meet in Waycross Tuesday, April 3, when committee reports will be heard concerning the proposed closing of the Baptist institution.

One committee was named to report on what disposition might be made of certain properties for use other than educational, and another was to investigate the possibility of converting Piedmont into a private school, and the third to attend to the present financing of the school.

The meeting Tuesday will be one of importance, since the fate of Piedmont probably will be definitely settled.

The members of the board, representing 28 south Georgia counties, are as follows:

Piedmont association—C. E. Gibson, president; J. T. Gillis, W. D.

Edwin Dewitt Dozier Is Laid to Final Rest at Milledgeville Home

Milledgeville, Ga., April 1.—(Special)—Funeral services for Edwin Dewitt Dozier, 36, were conducted from the family home here Saturday afternoon. Mr. Dozier died suddenly Friday morning.

Survivors in the immediate family are his mother, Mrs. R. V. Dozier; wife, two sons, Edwin, Dewitt, Jr., 12, and Richard Tally, 3, and a brother, Tanrice Dozier, of Atlanta.

O'Quinn, W. C. Parker, L. T. Swart, R. C. Cavender, R. D. Howard, E. L. Odum, C. J. White, W. Y. Smith, C. E. Stroope, D. G. Caldwell.

Smyrna association—Melvin Tanner, Gray Meeks, H. M. Meeks and C. C. Giddens.

RAILROAD MERGER BILL WINS FAVOR

Washington, April 1—(P)—The long discussed Parker plan for the voluntary consolidation of railroads will be presented to the house tomorrow for the first time in bill form.

The measure represents months of work by the house commerce committee, which tentatively has agreed upon its provisions after listening for weeks to the testimony of members of the interstate commerce commission, railroad officials and others interested in the transportation industry.

The committee has set Tuesday for a final vote on the bill but this is regarded by members as a mere formality.

The committee chairman, Representative Parker, of New York, and sponsor of the measure, said in a statement today that the primary purpose of the measure was to give effect to the established policy of permitting the voluntary unification of railroads and their properties.

The bill has two main features, he said. "First, to afford great and more effective protection to the public in railroad consolidations, so that only consolidations which effectively promote the public interest will be authorized.

Gives I. C. C. Power.

Second, to afford to the carriers more flexible methods for carrying into effect a plan which has been approved.

If the interstate commerce commission determines that the proposal will promote the public interest and approves the plan, the carriers may carry out a proposed merger through corporate merger, a corporate consolidation under state law, an acquisition of control through stock ownership, or an acquisition of properties by purchase, lease or otherwise.

The requirement that the interstate commerce commission first establish a plan for consolidation is repealed. The inadequacy of the present law in this point of view of corporate power and procedure is remedied by the grant of adequate power if the commission approves the plan and by describing in detail the corporate procedure and machinery for carrying an approved plan into effect.

Full protection is given dissenting stockholders by compelling the payment of a premium to those who do not desire to remain stockholders.

It is not asserted that railroad consolidation will remove all the difficulties of today in maintaining adequate transportation by rail. But I feel certain that a large majority of the committee is convinced that the enactment of the bill will prove a very substantial improvement.

Argument is not required upon the soundness of the policy of railroad consolidation. This policy has been established by the congress, has been repeatedly recommended by the president, and has been endorsed by carriers and shippers.

ENGINEERS' CHIEF ADVOCATES PORT AID FOR CAROLINA

Washington, April 1.—(P)—Modification of the existing project for improvement of the mouth of the Roanoke river, North Carolina, so as to provide a channel 10 feet deep and 150 feet wide between the mouth and Albemarle sound, at an estimated cost of \$465,000, with \$1,000 annually for maintenance, is deemed advisable by the chief of engineers of the army whose report of a preliminary survey on the subject has been submitted to congress.

C-convict Authors Must Stop Sale Of Manuscripts

San Quentin, Calif., April 1.—(P)—Convict penitentiaries who have been supporting independent miners, Dr. William F. Dunwoody, one of the architects associated in the \$3,000,000 Greater Wesleyan project here, Wesleyan officials express the hope that this building may be completed by the end of 1928. Completion by that time, however, according to Dr. William F. Dunwoody, president of the collection, depends upon whether the Greater Wesleyan campaign for the second million of the ultimate goal is successful.

Details of the building's plan include a great general lobby, just inside the massive entrance, Dr. Dunwoody said, with a high open door to office units and the chapel auditorium. On the right, entering the lobby, will be the office of the bursar, a large waiting room and the suite of the president. The registrar's rooms and the suite of the dean will be to the left, immediately opposite the front entrance to the lobby, and the main axis of the building is to be the chapel entrance.

The auditorium will measure 70 feet wide, 75 feet long and 32 feet high. A stage in the back will be 25x45 feet, with a proscenium of 20 feet. A sloping floor and balcony give ideal seating arrangement for about 1,000 persons. Mr. Dunwoody also said, A large committee room and offices for the secretary will be found on the second floor of the building, while the basement will contain office offices, dressing rooms, general toilets and storage rooms.

Describing the exterior, Mr. Dunwoody said:

"Across the front will be an exquisitely proportioned colonnade, composed of Ionic columns, over which are superimposed a pediment and tower, the tower itself being of well-

GREATER WESLEYAN PLANS ARE OUTLINED

Washington, April 1.—Architectural design and strategic location will combine to make the administration building of Greater Wesleyan college the most imposing structure on the entire campus, it is said by W. F. Dunwoody, one of the architects associated in the \$3,000,000 Greater Wesleyan project here. Wesleyan officials express the hope that this building may be completed by the end of 1928. Completion by that time, however, according to Dr. William F. Dunwoody, president of the collection, depends upon whether the Greater Wesleyan campaign for the second million of the ultimate goal is successful.

Details of the building's plan include a great general lobby, just inside the massive entrance, Dr. Dunwoody said, with a high open door to office units and the chapel auditorium. On the right, entering the lobby, will be the office of the bursar, a large waiting room and the suite of the president. The registrar's rooms and the suite of the dean will be to the left, immediately opposite the front entrance to the lobby, and the main axis of the building is to be the chapel entrance.

The auditorium will measure 70 feet wide, 75 feet long and 32 feet high. A stage in the back will be 25x45 feet, with a proscenium of 20 feet. A sloping floor and balcony give ideal seating arrangement for about 1,000 persons. Mr. Dunwoody also said, A large committee room and offices for the secretary will be found on the second floor of the building, while the basement will contain office offices, dressing rooms, general toilets and storage rooms.

Describing the exterior, Mr. Dunwoody said:

"Across the front will be an exquisitely proportioned colonnade, composed of Ionic columns, over which are superimposed a pediment and tower, the tower itself being of well-

studied design. It recalls to one's mind the beautiful towers of Sir Christopher Wren. Equally beautiful as the front facade is the one in the rear. Here the stateliness of the former gives way to a more intimate and domestic influence."

Mystery Woman Of Macon Taken By Death Sunday

Macon, Ga., April 1.—(P)—A middle-aged and apparently refined woman who appeared in Macon ten days ago and was given shelter by a sympathetic housewife, died tonight in a local hospital a week after she had sunk into a coma, from which she awoke at no time before her death tonight.

Mrs. Wilder told hospital authorities the woman apparently was of good family, but without funds. It had been determined tonight whether she was a self-file physician and her manner effects, excepting a few letters which have not yet been examined, gave no clues.

Argentine VOTES
FOR ENTIRE DIET
OF NEW OFFICERS

Buenos Aires, April 1—(United News)—Argentines went to the polls today to choose a president, vice president, and 81 members—one-half of the total strength—of the chamber of deputies.

Dr. Hipolito Irigoyen and Francisco

Salvador, personalists, radical candidates for president and vice president

were four-to-one favorites over their anti-personalists, radical opponents

Dr. Leopoldo Melo and Cinciano

Gallo.

Early voting was quiet, although

the result of the excitement of the campaign troops were held in barracks to be available in case of disorder.

The result of the election may not

be known for two weeks, as in Buenos

Aires, where 25 per cent of the votes

are cast, ballot boxes will not be open

for eight days.

A CLEAR, SMOOTH SKIN
ATTRACTS AND PLEASES!

A complexion that is clear, smooth

and soft invariably attracts and pleases

others.

If your skin is marred with pimplles,

blotches or discolorations and you want

a clear, healthy complexion, go to your

druggist, ask for Black and White

Ointment and use it according to direc-

tions. It is pleasant to use, highly

beneficial and scientifically safe.

For best results use Black and White

Skin Soap with Black and White Oint-

ment. All dealers sell them at small cost.

Mystery Woman Of Macon Taken By Death Sunday

her identity was a letter addressed to

"D. Maynard's 83 Chauncy

Brooklyn, N. Y."

Mrs. J. H. Wilder, at whom

the woman appeared and asked for

shelter and food, said she gave the

name of "Dr. Torie M. Maynard,"

but said nothing about her past life.

A week ago the woman complained

of headache and suddenly

into a coma, from which she awoke

at no time before her death tonight.

Mrs. Wilder told hospital autho-

rities the woman apparently was of

good family, but without funds.

It had been determined tonight

whether she was a self-file physician

and her manner effects, excepting a

few letters which have not yet been

examined, gave no clues.

DO IT TODAY!

Final appeal will be made today
for the completion of the fund re-
quired to enable the Old Guard of
Atlanta to entertain the guests of
the city on the occasion of the cere-
monies incident to the Robert E.
Lee Memorial exercises at Stone
Mountain, April 9.

Provision was made for this fund
in a timely donation by the board
of county commissioners. Payment
unfortunately having been enjoined,
the only thing for the city to do
now is to raise the fund by public
subscription. Committees have
been appointed to solicit such con-
tributions and they will undertake
to do so today.

It should be the work of only a
day.

Several of the oldest honorary
military companies of the United
States have accepted the invitation
of the Old Guard to visit Atlanta on
this occasion. These companies are
composed of prominent business
men in their respective cities. They
will come from Boston, New York,
New Haven, Richmond and other
cities. They have already made res-
ervations at the Atlanta hotels.

It would be a shame and a dis-
grace for the city of Atlanta to have
these guests come without making
adequate provision for their enter-
tainment.

It should be an easy matter to
get contributions of \$100 each from
men or business houses.

There is no time to lose and
there will be no doubt of the com-
pletion of the fund by night if the
matter is properly presented by the
men who will solicit this fund today.

The Old Guard has volunteered
to act as host. Many of its mem-
bers will subscribe to the fund.

They have done all that could be
expected of them and this famous
old organization may be depended
upon to act the part of a gracious
host, worthily representing the city
and being eminently fitted to ex-
tend the right-hand of fellowship to
its visiting guests.

It is as little as Atlanta can do
to provide the necessary fund for
entertainment, and this should be
done today.

THE SOLVENT FOR CRIME.

Crimes seem to constitute the
"most favored" class of our popu-
lation. Judge Marcus Kavanagh,
an expert investigating Chicago ju-
rist, has reached that conclusion and
discusses it with meticulous proofs
in a book he is about to issue.

Other eminent jurists and sociol-
ogists express the like judgment and
the common public has come to the
opinion that our criminal laws are
made by shrewd lawyers in the in-
terest of the underworld rather than
for the safety of the persons and
property of the law-abiding people
of the state.

There is no need here to discuss
typical instances or general statistics.
Common opinion is the best
commentary upon the state of af-
fairs, and common opinion is that
crime is the nearest safe business
in which a lawless spirit can en-
grave in these United States.

The problem that presses every-
where is to find a sure and effective
curb for the growing outlawry of
the era. The best judgment is that
the needed remedy doesn't lie in
the multiplication of statutes defin-
ing and penalizing offenses, or in
laws increasing punishments by
larger fines and longer terms.

Experience teaches that certainty
of detection and punishment supply
a more effective deterrent of crime
than severity of sentences upon the
minority of criminals who fail to
break through the meshes of the law.

We cannot admit that detective
ingenuity has no wit equal to that
of the criminal class. There are, in
fact, few major crimes that cannot
be solved eventually by honest and
experienced detective intelligence.

The famous "C. D. I." of London
seldom fails to "get its man," the
Mounted Police of Canada is world-
famous for hardly ever losing a
hunted quarry; and the police de-
tectives of Paris have no better in
the world. It is only in the United
States that daring criminals run
rings around the detectives of our
communities.

But better than an improved and
competent detective equipment our
criminal laws need certain and quick
enforcement. Judge Kavanagh
only adds to the opinions of Chief
Justice Taft, Judge Hughes, and
scores of other eminent jurists, that
crime in this country luxuriates and
flourishes in court delays, suspended
sentences, and easy paroles and
pardons.

So it is that if the people want
protection from criminals and
crimes they must force their legisla-
tures to reform the laws in those
vital respects in order to make them
certain and inexorable.

THAT MOSLEM MURDERER.

There is an ugly, repulsive looking
old pagan over in western Asia, call-
ing himself Sultan Abdul Aziz
Ibn Saud, autocrat of Nejd and
uprising king of Hedjaz, who is at-
tacking Christian Mussulmen in
Kuwait and Iraq and threatening
the Jewish people of Palestine. He
defies the mandated powers of Eng-
land and France and warns them
that he will apply a ruthless sword
to "convert" again to the faith of
Mahomet those Moslems who have
professed the Christian religion.

There are cool-headed European
statesmen who fear such a "holy war"
and visualize it taking a course
to involve the nations in another
general and more cruel world con-
flict than that from which mankind
is slowly recovering.

Before such a calamity shall
come upon the peoples of civilization
again, whatever power remains to
the nations that ensue peace and
brotherhood for mankind should be
concerted and put forth in such
strength as to make this menacing
Arabian monster back up and hang
his sword on the back wall of his
palace.

Any such war as he is starting
is anything but "holy," and it is
strongly to be hoped that the edu-
cated and Christianized conscience
of the civilized nations will not
stand for it.

Full freedom should be accorded
to all who wish to believe in Ma-
homet and worship toward or at
Mecca and Medina, but fuller lib-
erty should be undeniably demand-
ed by a just world for all those
who prefer another faith. The time
has gone by, let us hope every-
where as in America, when any
man's human rights can be denied
limited because of his religious
opinions, conscientiously formed
and held.

Anyhow, it will be in line with
advancing civilization to have this
Ab-dull sharpened by the wheel.

One of tolerance, even to the re-
sult that Aziz will become "as-was"
and "Ibn" become "has-been!"

An enlightened, humane and fra-
ternal world cannot afford to stand
aloof from any arena in which men,
women and children are being
butchered wholesale to satisfy
religious fanaticism. No right of na-
tional self-determination carries the
right of mass assassination.

Dr. Ernst Benedict, editor of the
famous Austrian newspaper, the
Vienna Neue Freie Presse, takes the
stand that Mussolini is just playing
the deuce in his threat to the Ger-
man people in southern Tyrol.

We have a mechanical man and
a dog that talks and reasons and
yet the average man cannot read
the warning signs at railroad cross-
ings.

No change of time was made in
Atlanta by the interstate commerce
commission, but fortunately the
I. C. C. doesn't control spring
time.

Another slight earthquake in
Atlanta, but up to present writing
Hollywood has not been
shocked.

This is home-sewing week in
Atlanta and all through Georgia it
is farm-growing time if the weather
will permit it.

There would be fewer investiga-
tions at Washington if investigations
were made before those under fire
get to Washington.

Linbergh's friends declare he
will not retire. This means he will
continue to be up and doing.

Chicago is 91 years of age but
will have to mend its ways to live
to be 100.

But who is the greatest living per-

son than severity of sentences upon the
minority of criminals who fail to
break through the meshes of the law.

THE WORLD'S
WINDOW

BY PIERRE VAN PAASSEN

D'Annunzio's
Jubilee.

Gabriele d'Annunzio's books, which
have always been on the index, have
received a new and even more em-
phatic denunciation from the religious
authority in the Observatorio Romano,
the official vatican paper. His works are
called "panaceas in praise of sin" and
the papal journal protests that the
Italian government's support of

the printing of a "de luxe" edition of
the poet's works is incompatible with
the deferential policy that fascism

generally practices vis-a-vis of the
vatican. D'Annunzio from his side,
just recovered from a serious illness,
replies to the attacks in a letter to a
friend. "It seems that the stake of

Arnold (of Buscia) has been put in
readiness again before the theater by

my persecutor," he writes. "It does
not seem certain that the marvelous

sculpture of Gian Gaspare on the
façade of Saint Mary of the Miracles
will not also be excommunicated and
that the vasa, imposed on the zealous

clerics of the index and declared that
pagan their spirit, one could bless the

candid and lucid genius of the Italian
poet. The vasa, which the papal journal
claims to be of great value, is to be

offered to him as a tribute from ad-
mirers. The due in his early days
was an intimate friend of D'Annun-
zio, and the poet's books have been
offered to him as a tribute from ad-
mirers.

Fourthly, once accepted and prac-
ticed these verities produce a trans-
forming experience of life as surely as
steam produces power. Let her con-
cerned in this regard as steam does as

she did in the cylinder, when she con-
sidered that the vital verities of Christian-
ity had been overthrown by the

Get hosiery free

Buy things you want with what you save

Now a finer tooth paste—yet 25¢ the large tube

THERE are many good dentifrices at 50c. But do you need to pay that much in order to have lovely white teeth and a healthy mouth?

For a long time, we felt that 25c was an ample price—even for a first class paste. And so, after more than thirty years of study of mouth conditions as makers of Listerine, we created Listerine Tooth Paste at 25c for the large tube.

Now, thousands, having learned that it cleans teeth as perfectly as more costly dentifrices, use it the year 'round and apply the saving to buying things they need.

Such saving, for instance, permits the purchase of from one to three pairs of woman's hosiery during the year, a good hat for a man, radio tubes, theatre tickets, things for baby, etc.

If you are single the average saving this dentifrice affords is \$3.00 a year. Think what the saving is when the family is large!

Buy a tube from your druggist. Compare it with any dentifrice you have ever known. Judge only by results. You will be delighted.

ICE MAROONED MEN REACH ONTARIO PORT

Port Dover, Ontario, April 1.—(AP) The fishing tug Jean F. was towed into port today by the ice breaker Vermont, of Ashtabula, Ohio, with all members of the fishing boat's crew and two members of the tug Altawandron's crew safe and sound after being marooned in an ice field in Lake Erie.

The Altawandron still was fast in the ice, where she was abandoned by the crew, who had been marooned in the ice field in Lake Erie.

The rescue ended a week of anxiety over the fate of the marooned crew, during which every effort was made to break through to their ice-locked craft and an airplane kept lake ports informed of the progress of the work.

The Altawandron became ice locked a week ago Friday, while en route to the fishing port of Port Rowan. The next day two members of the crew walked 17 miles over the ice to Port Rowan, returning Sunday morning with food supplies. With food rationed and only a small stove to provide heat, the crew remained in the small cabin of the tug for three days and then attempted to walk to the icebreaker.

Several tents were burned Wednesday in the hope that the flare would attract the lighthouse keeper at Long Point. Then the men started across the ice to open water, dragging a small skiff, but were forced to turn back because of the condition of the ice field. Later the Jean F. was sighted coming to their aid and two of the Altawandron's crew again started across the ice. They crossed three channels in their small skiff and dragged the men to the icebreaker, where they were met by the Jean F.'s lifeboat and taken aboard that craft.

Thursday the other three members of the Altawandron's crew were taken off by tugs and the craft abandoned.

Before the Jean F. could clear the ice, a southwest wind moved the ice field and that rescue boat became trapped. It was not released until today.

After the first rush of excited relatives and friends who greeted the crew, sailors on the crew of the Jean F. calmly showed their tents and put their boat in order before going to their homes.

The Vermont returned to the ice field to attempt to reach the Altawandron.

TAXICAB STANDS MAY BE BARRED IN VALDOSTA, GA.

Valdosta, Ga., April 1.—An ordinance forbidding taxicabs "stands" around hotels or other public places will be brought before the city council for adoption at its meeting Wednesday.

Several tents were burned Wednesday in the hope that the flare would attract the lighthouse keeper at Long Point.

Then the men started across the ice to open water, dragging a small skiff, but were forced to turn

MARCH BUILDING PERMITS AT PEAK

Atlanta building permits for the month of March will total more than \$185,000, according to pre-tabulation estimates Sunday by Charles J. Brown, city building inspector, and will reach the highest figure since February 1929.

The largest single permit for the month was \$600,000 for construction of the new Southern railway office building at Nelson and Spring streets.

Totals for the first quarter of the year were the \$4,000,000 mark, according to estimates, and nearly \$1,000,000 in excess of the totals of permits issued for the first quarter of 1927.

Detailed tabulation of the March permits will be completed this morning.

POSTMASTER KILLS CLERK AND SELF

Continued from First Page

Postmaster R. H. Wheless, Peter- son delivered the keys to his successor and then requested Kirkland to "take him out somewhere," but other employees did not catch his language as to the place.

He was soon sent out of the office with Peterson and they got into Kirkland's automobile and drove off in the direction of Huffer, where J. H. Peterson, his brother, resided.

Friday night Peterson went to Chief of Police Bob Barrineau and borrowed a pistol, saying he was providing around his house at night, and the chief let him have an old pistol he had taken off of some prisoner and thought nothing more of it until this morning, when it dawned on Barrineau that Peterson perhaps possessed the pistol with which to commit suicide.

He and McGrane started out to J. H. Peterson's to get him to come in and get the pistol away from his brother and while on their way out there they found both bodies lying in the road and Kirkland's automobile still running.

Both men were members of large and influential Coffee county families and the tragedy has cast a gloom over the entire city and county. No funeral plans have been announced for either man. Peterson's wife, Mrs. Sims, in charge of both bodies, Peterson received his first appointment from President Wilson and with Congressman Lankford's recommendation was reappointed and gave entire satisfaction as postmaster.

Simon, the new appointee, is a republican postmaster at Pearson, several years ago before moving to Douglas.

FALL ENDS ORDEAL OF PRIVATE TRIAL

Continued from First Page.

government and accepted it only after considerable argument.

The lease, Fall maintained, had nothing to do with the receipt by him of the liberty bonds from Sinclair. That was his only stock in trade, he said, and the chief let him have an old pistol he had taken off of some prisoner and thought nothing more of it until this morning, when it dawned on Barrineau that Peterson perhaps possessed the pistol with which to commit suicide.

EXPATRIATE THRIVES ON PARIS LIFE

Denver, Colo., April 1.—(United News)—In addition to eluding those who would question him concerning Teapot Dome, Henry L. Stimson has been regaining his health through his self-imposed exile in Paris.

Once troubled with heart and stomach ailments, the former president of the Midwest Refining company now is vigorous and strong, says friends who profess to have kept in touch with the man who once was known as Denvers' spendthrift millionaire.

A gay bachelor and rich liver, he was the target of Blackmer's physical disorders.

While the Salt Creek oil fields were pouring a steady stream of gold into his bank accounts, Blackmer was liberal in turn, and money streamed through his fingers and back into the business life of the city.

Monthly accounts of Blackmer with Denvers' leading stores topped the \$5,000 mark.

Neither before nor since his arrival had he been a millionaire who, spent as freely, store officials have revealed.

Blackmer gave the city its standard for the ideal host. His dinner parties were famous. They still are talked about.

But the oil executive's fondness for the good life was his undoing.

At the time he fled to Europe, he was being brought into the Teapot Dome oil leasing scandal, his health was causing him considerable uneasiness.

That has been changed, however.

He would seem natural that the gay life of the Parisian city would appeal to the man who had tasted the delights of life and found them enjoyable.

But the friends here are misinformed. Blackmer changed his mode of living and, although still ensconced in luxury, paid increasing attention to his health.

Last week Blackmer cut himself off from the Midwest company by resigning from its board of directors.

It is felt here that the gesture represented his final severance of all connection with American oil or even America. No one believes but he intends ever to return to his former home here.

Teapot Dome investigators now are interested in Blackmer chiefly because of his knowledge of the Continental Trading company, in which he is alleged to have made profits of \$763,000.

WILL GO TO COURT

Having finally told his story after five years of silence, Max, the oilman, says that his health will show improvement. He was silent, his family said, against the wishes of his family, and against the wishes of his counsel, who repeatedly urged him to make public full details of the lease and of the Teapot Dome deal, which he maintained.

The taking of the deposition has required a total of little more than sixteen hours divided over four days, and Fall, his family said, has explained that his health will show improvement. He was silent, his family said, against the wishes of his family, and against the wishes of his counsel, who repeatedly urged him to make public full details of the lease and of the Teapot Dome deal, which he maintained.

Washington, April 1.—(AP) Flood control work on numerous streams throughout the country will begin immediately and will be pushed by army engineers as far as is practicable, under allotments of funds aggregating \$1,500,000 announced today by the secretary of war.

The money became available March 23 and Major General Edgar Judd, chief of engineers, has selected for special attention streams on which floods have occurred and others in which the conditions are so serious that these may be in order.

The funds will be used for the beginning of surveys of the streams with a view to the formulation of plans for their most effective improvement from the standpoint of flood control and mitigation, in coordination with irrigation and navigation.

The funds will be used for the beginning of surveys of the streams with a view to the formulation of plans for their most effective improvement from the standpoint of flood control and mitigation, in coordination with irrigation and navigation.

These uses may be in order.

A reserve of about \$500,000 is being held to supplement the allotments for those streams on which progress of surveys may indicate that additional funds can be used profitably this year.

The areas involved include Southern, Gulf, districts, Savannah, Alabama and tributaries, St. Marys and Satilla,

THE CONSTITUTION, ATLANTA, GA., MONDAY, APRIL 2, 1928.

RADIO TELEPHONE PIONEER IS FOUND DEAD IN KENTUCKY

MURRAY, Ky., April 1.—(AP)—Nathan Stubblefield, 65, inventor, who in 1902 conducted a public demonstration of wireless telephony here before 1,000 townspersons, was found dead at his hut six miles from town. He had been dead for several days, and the body had been mutilated by rats.

Mr. Stubblefield, who lived alone and died in want, had written books on wireless transmission. In 1902, following his demonstration, he made sweeping prophecies as to the coming of radio over land and sea. In 1908 he invented an earth cell battery which drew enough energy from surrounding elements to run a small motor continuously for two months and six days.

TWO SISTERS DIE TO HIDE DISGRACE

Continued from First Page.

Two sisters died yesterday in the same house in Murray, Ky., where they had been living in secret for more than an hour better than the previous day.

The former cabinet member said he had not discussed the oil lease affair before because he felt it would be unfair to his political party.

"I am happy now that I have told the truth about the oil leases," he said. "My story was not as complete as I would have liked it to be and did not cover some points that I thought the public should be told in fairness to me."

"I have felt that it was due my family, regardless of what others may think, to tell my story, and I feel that it will put an entirely new light on the oil leases when it is read in court. I feel certain my story will show there was not the least foundation for the charges made against me, and that my testimony will clear Mr. Sinclair of the charges made against him.

"I am happy it is over, but I wish it had been all cross-examination, because I enjoyed that part."

The end of the examination found the 67-year-old former senator in good spirits, although weak from the strain of telling his story of the leases for the first time. He was asked, however, the cross-examination by Atlee Pugh, and as it neared the close and his physician hovered around him, he looked up with a smile and said: "Get away, doctor, and let me alone, I am having more fun than in years."

Continued from First Page.

tion was 194,700,000 barrels of oil, in round numbers, and in 1926 a little more than 90,000,000. Unofficial figures for 1927 were around 60,000,000. Mexico, therefore, was in a way to lose her predominating position in the oil market.

Another Problem.

There still remains another problem—that relating to the alien land law. This law provides for the exclusion of all aliens, including persons of Mexican of lands owned by foreigners, who fail either to develop them or are in arrears in the payment of taxes.

While the meteorological chart of foreign affairs shows Italy, France and Spain as the most peaceful countries in the world, the Italian peninsula was beset with clouds of undoubted electrical potentiality. In the realm of II Due, church and state are at odds. Premier Mussolini long ago intimated his intention of bringing up Italian youth and preparing them to co-operate with the state entirely in charge of the education of the young, physical, moral and spiritual. The first step was to make it impossible, by decree, for teachers and educators to have any other allegiance than that to the fascist government.

As though in answer to this Mussolini immediately ordered dissolution of all organizations of youth, with the exception of Balilla and Avanguardia parties, which are identified solely and absolutely with the fascist state. This means that the Catholic youth, numbering many thousands, and similar Catholic youth organizations must be disbanded.

The determination of Mussolini to carry all his plans to fruition has been demonstrated ever since he became the virtual dictator of Italy. How the various can meet a situation involving what it considers its foreign rights has been shown since the fall of the temporal power in 1870. The "Roman question," involving the respective positions of the church and the state, has been an ever present problem since that time. Not only does the world rejoice at realization of the existence of a complete plan leading to a veritable monopoly of juvenile education.

Youth is Disorganized.

As though in answer to this Mussolini immediately ordered dissolution of all organizations of youth, with the exception of Balilla and Avanguardia parties, which are identified solely and absolutely with the fascist state. This means that the Catholic youth, numbering many thousands, and similar Catholic youth organizations must be disbanded.

The "Roman question," involving the respective positions of the church and the state, has been an ever present problem since that time.

Not only does the world rejoice at realization of the existence of a complete plan leading to a veritable monopoly of juvenile education.

Development Awaited.

Whether Mussolini's plan will affect the present "negotiations" between the Holy See and the fascist regime on certain concessions considered desirable by the vatican, and to what extent the predominantly Catholic population of Italy proper will acquiesce in the new order, await developments.

Immigration problems, immigration and emigration—were aired in Havana, Cuba, and Australia. The second international immigration conference met in the Cuban capital with delegates from all over the world, including the United States and Japan, they agreed to establish an "immigration quota" before them. In Australia, former Premier Hughes urged the commonwealth to shut out, or at least restrict the immigration of negroes and Italians.

Poland and Lithuania are once more trying to patch up their differences at a conference at Koenigsberg, Germany. The two countries are at odds, and both nations want it.

Three German airmen, Baron Von Huenfeld, Captain Kochl and Associate Pilot Spindler, anxious for the glory of the Fatherland, flew from Berlin to Baldonnel airfield, near Dublin, Ireland, and there remain for

favorable weather for the hazardous flight across the ocean to witness the running, and Billy Barton, an American horse, owned in Baltimore, was one of the two to finish out of forty-two contestants. The other horse was ahead of him, but Billy Barton made a gallant fight.

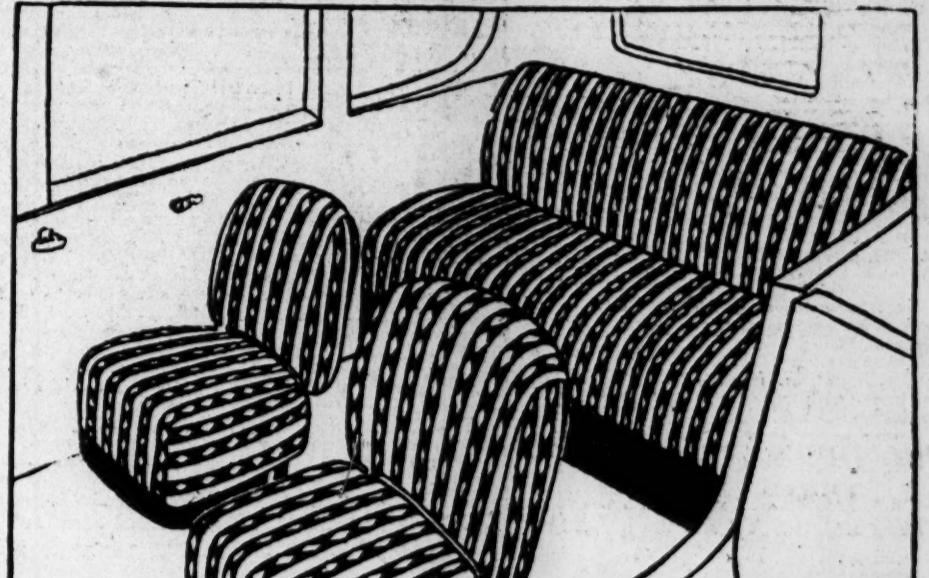

The Cambridge Light Blues defeated Oxford in the annual single-elimination race on the Thames. Cambridge won by 10 lengths. It was the 80th meeting of the two universities over the four-mile course. Of these races Cambridge has won 39, Oxford 40, and one race was a tie.

Smyrna in Asia Minor, an ancient city of disaster, was severely shaken by an earthquake at the week-end, in which many people were reported killed and much property destroyed.

Philadelphia, April 1.—(AP)—Despite the fact that the volume of traffic and the revenues and net earnings in 1927 were not so large as in 1926, the annual report of the Pennsylvania railroad, issued tonight, stated that the net income for the year showed an increase of \$502,337.

The New Science and the Old Religion, by Thornwell Jacobs, is published by the Oglethorpe University Press (price \$3.75, postpaid), and is selling literally all over the world. (adv.)

Auto Slip Covers

Protect Your Car With These Covers They Add Attractiveness and Comfort

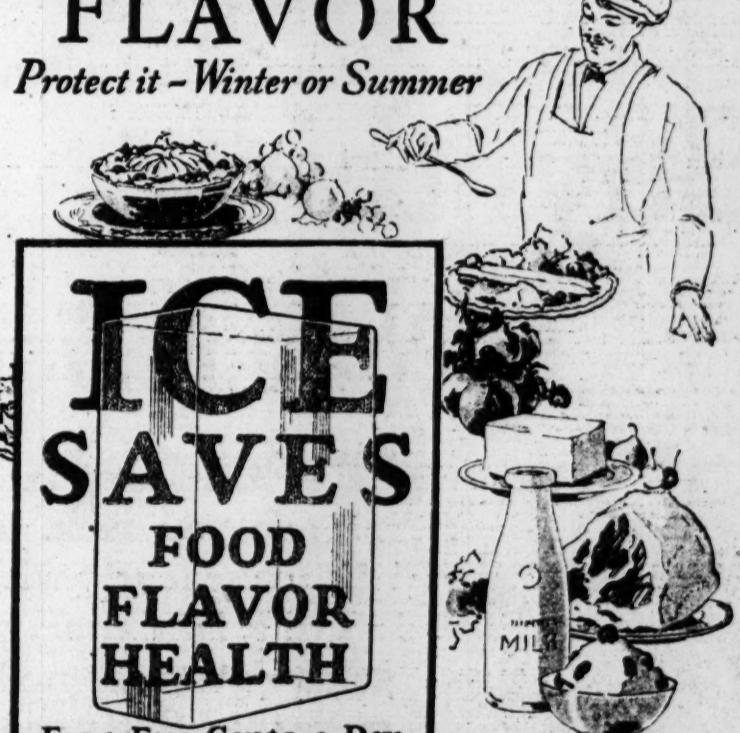

Now that Spring is well on the way it is the time to think of making your auto comfortable for the hot days that are on the way. Nothing could add more to the comfort of traveling than clean, cool seat covers. We have all the popular models of seat covers, made of fine quality pre-shrunk Denim. In two popular colors.

LINDY WILL MAKE SHIPS, SAY AIDES

Dallas, Texas, April 1.—(AP)—If associates accompanying Charles A. Lindbergh, whose plane was serviced here today on its way to San Diego, know the reason for the colonel's flight, the reason for the colonel's flight is out. They told newspaper men the cardinal objective of his trip is a conference with persons who want him to head a new airplane manufacturing concern. St. Louis, the colonel's home town, may be the location of the factory, they declared.

Lindbergh declined to deny or confirm the statements, merely saying that he had "nothing definite to announce at this time."

The three men traveling with the flying colonel were the backers of his division of flight: Harold M. Coffey, president of the St. Louis Chamber of Commerce; Harry Hall Knight, president of the St. Louis Flying club and Major William Robertson, president of the Curtiss-Robertson Airplane Manufacturing company.

They are making the trip in a Ryan brougham, similar to the famed "Spirit of St. Louis."

ARRIVES AT EL PASO ON COAST TRIP.

El Paso, Texas, April 1.—(United News)—Colonel Charles Lindbergh landed at the Fort Bliss airport here from Dallas at 5:15 o'clock this afternoon. He was greeted by a small crowd which had been waiting since noon.

Lindbergh said he would spend the night at Fort Bliss as the guest of the Adjutant General George Van Horn Moseley, post commander. On Monday he will continue his westward flight, presumably with San Diego, Calif., as his destination.

ALLEGED DRUNKEN DRIVER ARRESTED FOLLOWING CRASH

H. W. Robinson, 229 Ponce de Leon, was arrested at his home late Saturday night on charges of being drunk and reckless driving after he had collided with the car of R. G. Wachter, 594 North Avenue, on the corner of Ponce de Leon Avenue and Penn Avenue.

Both cars were overturned and almost completely demolished. A third car parked near the scene of the accident was damaged to considerable extent.

HOOVER IS SURE OF MICHIGAN VOTE

Continued from First Page.

He is notably large under the circumstances, is counted on to have an effect on the state of Indiana where the only hard-fought republican contest of the present year is under way.

La Follette Party in Balance. The republican nomination in Wisconsin the following day, Tuesday, will have less effect bearing on the presidential nomination. It is anticipated that the result will either overthrow completely or else give another lease of power to the remarkable La Follette, who has been the dominant third of a century has dominated the state and has been substantially the state's only exponent in national politics.

With few exceptions or variations they had always a uniform program of aggressive, almost truculent insurgeney. Always they voted for La Follette from the first ballot to the last. Always they presented a compact and dedicated party platform, a platform which, though in the regular resolutions committee, always they were voted down overwhelmingly, although it sometimes happened that at subsequent conventions La Follette ideas found respectable adoption in the regular platform. Always the Wisconsin delegates refused to compromise.

Always they decline to participate in the courteous concluding gesture of making the nomination of the winner unanimous. Always they went home to hold Wisconsin in its half out of the republican party. Since the 1924 convention the senior La Follette has died, and this week the La Follette organization in Wisconsin is obliged, for the first time, to go to the polls with a candidate for the presidential nomination, who comes from outside the state. Senator George W. Norris, of Nebraska. That the mere fact of having a candidate other than their own La Follette would impair the La Follette organization's chances of victory is not surprising, and this has been seized upon by the regular republican of the state to make what they regard as the most earnest and promising effort of a third of a century to win Wisconsin back to the regular republican fold.

No La Follette Candidate.

The opposition to Norris and to the La Follette organization has no candidate for the presidential nomination. They are making their fight wholly on the basis of La Follette. As it has been their judgment that they should have no one candidate for the presidential nomination, but should merely set up a slate of uninterested and unpledged delegates behind whom they could rally every element opposed to La Follette.

Norris as the candidate of the La Follette group has some handicaps additional to being a non-resident. Norris is a dry, and Wisconsin is mainly dry. Norris was a believer in the League of Nations, while his position to the league was the main principle in the late Senator La Follette's creed. Moreover, Wisconsin, with large dairy interests in the rural parts of the state, has not shared the farm depression as severely as some portions of the middle-west. If Tuesday should be the day when, for the first time since practically 1900 a clearly regular and anti-La Follette delegation should be sent by Wisconsin to the regular republican convention, that would mark the quiet extinction of one of the most enduring personal dynasties that any American state has ever had.

MONDAY LAST DAY FOR \$3,500 FUND

Continued from First Page.

The unveiling ceremonies are the Ancient and Honorable Artillery, the Boston's the oldest military organization in the United States. The first company of the governor's foot guard of Hartford, Conn.; the second company of the governor's foot guard, of New Haven, Conn.; the Old Guard of New York, which will act as honorary escort for Major James J. Walker, of Philadelphia, and the Hornet's Nest Rifles, of Charlotte, N. C.

These organizations, Mr. McCord pointed out, have visited Atlanta before and have served as hosts to the Old Guard on its trips to the north.

Wants Best.

"People of my ward particularly are interested in the class of service which Grady renders. They are forced to use the institution probably more than in any other section of the city. Therefore, we actuated by a desire to see that they get the very best attention possible for the white unit to give."

Mr. Bowden's proposal is the outgrowth of a stinging indictment

launched last Friday by Dr. Marion Benson, chairman of the executive

Noon Preacher.

BISHOP EDWARD D. MOUZON.

MOUZON TO SPEAK AT NOON SERVICES

Continued From First Page.

A. of Oakland, Calif.; Dr. M. E. Dodd, of Shreveport, La.; Dr. H. Crossfield, pastor of the First Christian church, of Birmingham; Dr. H. Massie, pastor of First Temple, of Atlanta; Dr. William Bay Dobyns, pastor of the South Highland Christian church, of Birmingham, and many others.

James Morton, executive secretary of the organizations who are sponsoring the services, Sunday, April 2, in the interest of the people of Atlanta at large to attend the meetings and worship with God in "prayer and singing."

"We want everybody in Atlanta and adjoining territory to hear Bishop Mouzon, and we also want to make our last service the best of the entire program," Mr. Morton said.

Those who will preside at the services this week follow: Today, Dr. John S. Jenkins, presiding elder of the South Atlanta District; Tuesday, Dr. J. Sproule Lyon, pastor of the First Presbyterian church; Wednesday, Rev. J. L. Jackson, pastor of the Kirkwood Baptist church; Thursday, Dr. W. T. Hunicutt, pastor of the Inman Park Methodist church, and Friday, Dr. Luther Rice Christie, pastor of the Ponce de Leon Baptist church.

Dr. Paul E. Lincheck, of the First Christian church, will conduct the musical program all this week, assisted at the piano by Mrs. Charles J. Williamson, of the North Avenue Presbyterian church.

La Follette Party in Balance.

The republican nomination in Wisconsin the following day, Tuesday, will have less effect bearing on the presidential nomination. It is anticipated that the result will either overthrow completely or else give another lease of power to the remarkable La Follette, who has been the dominant third of a century has dominated the state and has been substantially the state's only exponent in national politics.

With few exceptions or variations they had always a uniform program of aggressive, almost truculent insurgeney. Always they voted for La Follette from the first ballot to the last. Always they presented a compact and dedicated party platform, a platform which, though in the regular resolutions committee, always they were voted down overwhelmingly, although it sometimes happened that at subsequent conventions La Follette ideas found respectable adoption in the regular platform. Always the Wisconsin delegates refused to compromise.

Always they decline to participate in the courteous concluding gesture of making the nomination of the winner unanimous. Always they went home to hold Wisconsin in its half out of the republican party. Since the 1924 convention the senior La Follette has died, and this week the La Follette organization in Wisconsin is obliged, for the first time, to go to the polls with a candidate for the presidential nomination, who comes from outside the state. Senator George W. Norris, of Nebraska. That the mere fact of having a candidate other than their own La Follette would impair the La Follette organization's chances of victory is not surprising, and this has been seized upon by the regular republican of the state to make what they regard as the most earnest and promising effort of a third of a century to win Wisconsin back to the regular republican fold.

No La Follette Candidate.

The opposition to Norris and to the La Follette organization has no candidate for the presidential nomination. They are making their fight wholly on the basis of La Follette. As it has been their judgment that they should have no one candidate for the presidential nomination, but should merely set up a slate of uninterested and unpledged delegates behind whom they could rally every element opposed to La Follette.

Norris as the candidate of the La Follette group has some handicaps additional to being a non-resident. Norris is a dry, and Wisconsin is mainly dry. Norris was a believer in the League of Nations, while his position to the league was the main principle in the late Senator La Follette's creed. Moreover, Wisconsin, with large dairy interests in the rural parts of the state, has not shared the farm depression as severely as some portions of the middle-west. If Tuesday should be the day when, for the first time since practically 1900 a clearly regular and anti-La Follette delegation should be sent by Wisconsin to the regular republican convention, that would mark the quiet extinction of

EMPIRE—"Clancy's Kosher Wedding."

FAIRFAIR—"Coney Island."

LAUREL—"The City Grows Wild."

PALACE—"The Lost World."

PONCE DE LEON—"The Lost World."

WEST END—"Spring Fever."

Keith's Georgia.

Bert Lytell, making his first and only personal appearance on the stage before resuming his film production, comes to Keith's Georgia theater to do as the headliner attraction of the week. For several years Bert Lytell has been prominently identified with the production of feature films, his most recent releases being the "Lone Wolf" series of mystery stories. Before his screen starring period Bert Lytell was on the legitimate stage.

Capitol.

Headed by the irrepressible Jimmie Hodges, ace-high comic of the musical comedy stage, the Capitol stars in "The Garden of Edens," represents the ultimate in entertainment to local amusement seekers. "Pretty Baby" in a condensed and revised version will be presented by the Hodges company of 20 artists this week. And Jimmie himself, has an unusually clever line of patter for the "customers." Lillian Moreheads the big vaudeville bill of three acts, and Laura LaPlante in "Thanks For the Buggy Ride," a screamingly funny film comedy, is the screen feature.

Loew's Grand.

Several musical comedy artists will appear today at Loew's Grand theater. First among these is Florence Hedges in "Broadway Hits." Another star of the musical comedy field is Frank Shueir, who will present "Find 'Em and Fool 'Em." Then comes Frank Melino in "Just a Lot of Fun." Other acts are Lydia Hart and the Three Gollers. The Loew's feature picture is "Quality Street."

the screen version of Barrie's great play with Marion Davies in her greatest role.

Howard.

The temptation of a modern Eve for a modern Adam in a modern Garden of Eden is the formula which produces excellent screen entertainment at the Howard this week, while Corinne Griffith in "The Garden of Eden" opens today. With Lowell Sherman as a modern Satan, the plot is complete. Ray Teal, our own maestro of jazz, will present the Public stage show, "Moonlit Waters," featuring Fauntleroy and Van and five other big acts. The Museum Fashion show also will be featured.

Metropolitan.

As its second program in conjunction with Vitaphone, the Metropolitan, after a six weeks' record-breaking run with Al Jolson's "The Jazz Singer," the Metropolitan will open with "If I Were Single," starring May McAvoy and Conrad Nagel, with Vitaphone accompaniment. Vitaphone's eighty-piece symphony orchestra, and several Vitaphone presentations of novelty, music and comedy.

Rialto.

"So This Is Love," now being shown at the Rialto theater, unfolds a story of a romance born in the artist's section of lower New York, where frail youth finds an ideal for his fashion creations in a mere slip of girl living across the street. The interest轉转 in a love which reciprocates, after she has been the sweetheart of a bullying brown-beating prize fighter.

Alamo No. 2.

"The Warning," which comes to the Alamo No. 2 theater today, relates the adventures of a girl detective in the underground opium dens along the Hong Kong waterfront. The plot affords an exceptionally fine role for Jack Holt, who is given opportunity to use his fists and stage some thrilling rescues.

West End.

Every new picture brings William Haines nearer to being an all-around athlete—and every picture establishes him more firmly as one of the leading screen attractions of the day. "Spring Fever" makes him a golfer. It plays at the West End today and Tuesday.

Palace.

Talmadge's latest and perhaps most sensational picture, "Camille," will be shown at the Palace tonight and tomorrow, enabling the local movie fans to see and judge for themselves the production that has claimed a lion's share of interest among releases of the current season.

CAROLINA KILLER
REPORTED JAILED

Wilmington, N. C., April 1. (P)—Police authorities here were advised this afternoon that Warren L. Moore, alleged slayer of Slim Hill and Tom Evans, had been captured in Baltimore and was being held for Wilmington officials.

Requisition papers are being prepared. The telegram from Baltimore advised that Moore had confessed to the double killing.

Ala. Non-Glare
Auto Light Law
In Effect Aug. 31

Montgomery, Ala., April 1.—Non-glare headlights for automobiles will not become effective until August 31 of this year. Governor Bibb Graves decided after a conference with members of the Alabama Automotive Trades association and the state highway commission.

The governor further stated that in the opinion of no authority is given to the highway commission that any particular device to prescribe any particular device to be used in connection with automobile headlights.

The governor said he believed persons could not be arrested for failure to use any particular device.

The meeting at the governor's office was attended by the president of automobile dealers and automobile accessory concerns, who protested against the prescribing of a limited number of non-glare devices for auto headlights being specified by the traffic division.

They asked the governor to advise the highway commission that any non-glare headlights device approved by the United States Bureau of Standards be approved for use in Alabama.

The governor promised that this would be done, according to W. Cleve Stokes, president of the Alabama Automotive Trades association.

"So This Is Love," now being shown at the Rialto theater, unfolds a story of a romance born in the artist's section of lower New York, where frail youth finds an ideal for his fashion creations in a mere slip of girl living across the street.

The interest轉转 in a love which reciprocates, after she has been the sweetheart of a bullying brown-beating prize fighter.

Wednesday, February 1. Some

more bull carts are located in Leon and are now awaiting arrival of carts at 7:30 a. m. There are about 200 carts ahead of us which we should pick up Saturday. The supply train will be about seven miles long when it gets together. Left the farm with a load of 1000 lbs. and I'll be stalled along for about two hours waiting for train to be made up. After getting under way the dust was thicker than a California fog. But we had a great big tropical moon shining plenty.

Foregoes His Sleep.

Top o'the Morning!

Will be the greeting of the J. M. HIGH COMPANY to you in The Constitution every morning in the week and Sunday, giving you the news of the greatest values in town--every day.

Top o'the Morning!

HIGH'S is *Atlanta's Store of the Masses*. We are, in the largest sense, servants of ALL the people---and it is by correctly interpreting the wishes of the great majority of the people that this proud heritage, which we prize higher than all else, has come to us. In all things your wish is to us a command.

Top o'the Morning!

Some time ago we sought your advice on one of the most important functions of a great store. We published a full page advertisement, offering a diversified line of merchandise, *at High's usual low prices*. Each item bore a coupon---and you could clip the coupons from the publication of your choice. We asked you to tell us by these coupons which publication was *YOUR BUYING GUIDE*.

Top o'the Morning!

We are profoundly grateful for the whole-hearted co-operation you gave us on Coupon Day. By the thousands of coupons you brought to us, you amplified our faith in the three great daily newspapers of Atlanta---and henceforth, every morning--week days and Sundays---HIGH'S will say "Top o' the Morning" to you in The Constitution---with the greatest values in town every day.

J. M. HIGH Co.

45 Years of Faithful Service and Value-giving

JUGGERNAUT

By Alice Campbell

SYNOPSIS.

Esther Howe, a young nurse, having recovered from an invalid from the United States to Cannes on the Riviera, is about to return to New York when she sees an advertisement in the paper for a nurse and doctor's assistant and she decides to apply for the job in order to spend a little time in Cannes.

While waiting for her interview, her application to Dr. Sartorius, Esther treats herself to tea at the fashionable Restaurant des Ambassadeurs. She becomes interested in the conversation of a beautiful French woman and her escort, an Englishman, who sit at the next table. Esther overhears her jotted. Esther finds a note from the doctor and reads it in the morning.

The beautiful French woman comes to see Dr. Sartorius and Esther learns that she is the wife of Sir Charles Clifford, an Englishman, who is stricken with typhoid fever and Dr. Sartorius gives up his practice and laboratory work to devote himself exclusively to Sir Charles.

Esther is taken on the case as day nurse.

Sir Clifford, Sir Charles' only son, arrives in Cannes.

Esther is attracted to Sir Charles' son, Roger, and the whole estate.

Roger is attracted to Esther and invites her to dine and dance with him.

The two are seen in the fashionable restaurants in Cannes.

On returning to the hotel, Roger and Esther are seen in the darkened drawing room with Arthur Holiday, who has been paying Lady Clifford some attention. Roger invites Esther to leave the house.

The next day Sir Charles breaks the news to his wife that he has named his son as his executor in his will. Lady Clifford flies into a rage.

Shortly afterwards Roger complains of a headache, and his aunt, Miss Clifford, offers him some aspirin. Roger takes the medicine and breaks it and cuts off his hand. Esther is called in to blod up the cut and in her haste mislays the hypodermic needle, which he has just used on Sir Charles. The doctor is unwarrantably angry with Esther and makes her leave the room.

Esther, with a heavy heart, makes her excuses and leaves the house.

Esther is about to leave Roger when she leaves him.

As she is about to leave Roger gets the report from the chemist that the hypodermic needle has been lost.

I HAVE SAID IN MY HEART
BY IDAH M'GLOUE GIBSON.

GRAND LADIES

In one of the recent Sunday newspapers some woman is writing a series of articles which she calls "Grand Ladies." They are chatty little pieces about women who have for a time attained their ambition of being "The leaders of New York Society," whatever that may be.

These women have spent most of their lives and millions of dollars in being snubbed by those whom they think are higher in the social scale than themselves and then conscientiously passing the snubs on to those they consider their social inferiors.

One of these women has estranged her children, her friends, who might have loved her, and even her husband; for what?

We, who are on the outside looking in, cannot conceive just why the feeling of isolated grandeur is worth all the work, the money, the heartaches and loss of everything worth while. Or how can it be compensated by having the words "New York Society Leader" tacked on to one's name?

One might conceive why it would give pleasure to one's vanity to know that one has the finest collection of toy elephants in the United States, but why should the feeling that one is able to draw a blue pencil through the name of some other woman whose only sin is that she wants to be invited to her next dinner dance, solace one's soul?

True, the younger woman may be clever, beautiful, rich and ambitious, the same qualities that the great lady herself had some years ago before she had arrived at the summit of her desire, and consequently became the keeper of the portal wherein a number of "stuffed shirts" and "ropes of pearls" repose upon the more or less moth-eaten cushions of conventional hypocrisy.

Only recently one of the magazines had an illuminating article on the heartache, humiliation and loss of money that a campaign looking to the washing New York society entailed.

In reading it, it would seem that no self-respecting woman could endure them, especially as the average person is apt to class the rewards that society can give with those of one-eyed Connolly, the hobo gate-crasher of sporting events.

I imagine that the name of Connolly probably is known outside the sporting fraternity quite as well as that of Mrs. — outside the charmed circle that sits in the diamond horse shoe on the opening night of the Metropolitan Opera. It is at most your name in the mouths of comparatively few unimportant people.

Memo: This is a big world and if you want to crash its gate of universal fame, you had better try aviation or moving pictures.

KINKY'S LONG TONGUE.

By Thornton W. Burgess.

Nature doth provide and plan
For needs of all, including man,
—Mother West Wind.

Bobby Coon had a lot to think over. He tried to make himself think that what Scrapper the Kingbird had told him about the members of the Raccoon Family was true, but he had been made up by Scrapper. But right down inside Bobby knew that Scrapper had been telling him the truth. It gave him a queer feeling to think that he had these faraway relatives of whom he had never heard before. He wanted to hear more. He wanted very much indeed to hear more. He didn't like telling it even to himself, but it was a fact.

So the very next day who should appear at the edge of the Green Forest, close to the Old Orchard, but Bobby Coon. He tried to appear as if he had not come over there for any purpose but was just passing that way. The bright eyes of Scrapper the Kingbird discovered him almost at once. Scrapper shrank back and knew what had brought Bobby over there.

"He's just as full of curiosity as Peter Rabbit," thought Scrapper. "He wants to know more about that long tongue of Kinky the Kinkajou. That's what has brought him over here."

Now Bobby hoped that he would find Scrapper the Kingbird right on the edge of the Old Orchard, but Bobby Coon. He tried to appear as if he had not come over there for any purpose but was just passing that way. The bright eyes of Scrapper the Kingbird discovered him almost at once. Scrapper shrank back and knew what had brought Bobby over there.

"He's just as full of curiosity as Peter Rabbit," thought Scrapper. "He wants to know more about that long tongue of Kinky the Kinkajou. That's what has brought him over here."

It was Scrapper's turn to blink. "What's there anything about his having onto things with his tongue?" he exclaimed.

" Didn't you say that it was for the same purpose as his long tail? And didn't you tell me that that long tail was to hang onto branches by?"

"I did," responded Scrapper. "I told you that the purpose of that long tail was to be made use for Kink's special needs, and that is the purpose of his long tongue. He can run it into places like cracks and little holes in trees, where you would be quite helpless. He likes having onto things with his tongue."

" And what if you please, is Banana Bill? Is he another relative of mine?" asked Bobby.

The next story: "Banana Bill."

DIET AND HEALTH

BY LUIU HUNT PETERS, M. D.

PLEASE LISTEN IN. — Please do not demand from me answers to your conditions that should have the immediate personal attention of a physician, and do not depend upon the column for such advice, for even though your questions can be answered in the column, and answered immediately, it will not be a great time before the answer can appear.

My Diet and Health column is a syndicated feature appearing all over the United States and Canada, and is written and sent out from New York. This means it has to be written four weeks in advance. The column creates great interest, wherever it appears, and it is copied from the different places is enormous. In order to be able to handle this mail and be helpful to you, we have formulated the following rules, and unless they are complied with, your letters cannot receive attention.

Address your letters to me in care of The Atlanta Constitution. They will be forwarded to my New York office. Sign your name as evidence of good faith; it will not be used in the column. (I use one initial.)

2. Write legibly and with a pen; if your handwriting is not clear, get someone to write for you, or use a

Constitution's Patterns

A NEAT AND PLEASING MODEL
FOR HOUSE OR PORCH WEAR.

61/5. Percale, tub silk, gingham or dimity will develop this design very attractively.

The pattern is cut in 4 sizes: Small, 34-36; medium, 38-40; large, 42-44; extra large, 46-48 inches bust measure.

To make the frock as illustrated in the large view, for a medium size will require 4 1-8 yards of 27-inch wide material, 1 1/2 yards of 27-inch contrasting material for facing on the belt, and 2 1/2 yards of narrow bias binding. The width of the frock at the lower edge with plaited ends is 2 1/2 yards.

Pattern mailed to any address on receipt of 10 cents in silver or stamps.

A PRETTY FROCK FOR MOTH-
ER'S GIRL.

61/23. Cotton prints, challis, gingham and linens are attractive materials for this model. It shows the new tie sash, and may be made with or without the peasant sleeves.

The pattern is cut in 4 sizes: 4, 6, 8 and 10 years. An 8-year size is made with peasant sleeves will require 2 3-3/4 yards of 36-inch material together with 3-3/4 yard of contrast material for facing on yoke and belt. If made without the peasant sleeves, 1-1/2 yard less will be required.

Pattern mailed to any address on receipt of 10 cents in silver or stamps.

Send 12 cents in silver or stamps for our up-to-date Spring and Summer 1928 Book of Fashions.

In ordering patterns write name and address plainly on a sheet of paper. Order by number and include price in silver or stamps. Do not mail letter to The Constitution building in Atlanta, but address as follows: Fashions Department, The Constitution, 11-13 Sterling Place, Brooklyn, New York.

BIG LUMBER DEAL
IS CONSUMMATED
IN SOUTH GEORGIA

Thomasville, Ga., April 1.—A deal involving a large body of cypress and pine timber, estimated at 60,000,000 feet, with the sawmill outfit, dry kilns and planing mill plant formerly owned by the Southern Sawmill company, Thomasville, was consummated here Saturday night, through the Frank L. Gibson Real Estate agency of this city.

The big timber tract is situated across the state line in Madison and Jefferson counties in Florida, south east and west of the South Georgia railroad. The sawing plant is located at Greenville, Fla. The property is acquired by F. L. Bailey, of Marion, Ala., and it is understood he has the intention to commence operations as soon as he can get a organization perfected.

Norman Hopkins, of Thomasville, has contract from the new owner for the operation, covering a number of years handling similar contracts with the Standard Lumber company and Brooks-Scanlon company, two of the largest concerns in the lumber business in the southeastern territory.

AIRPLANE CARRIES
FATHER TO ILL SON
IN JACKSONVILLE

Racing against death to carry a father to the bedside of his son, dangerously ill, Beeler Blevins, Atlanta air pilot, Sunday flew his plane to Jacksonville in two hours and 40 minutes.

F. H. Weller, of Jacksonville, received news in Nashville, Tenn., Saturday night that his son was thought to be dying after an attack of lockjaw. Catching the first train out of Nashville for Atlanta, Mr. Weller arrived here at 7 o'clock Sunday morning and a few minutes later he hopped off from Candler Field with Blevins.

Blevins won the race with death and the father reached his son, who is, however, still in a dangerous condition.

Wild Automobile.

An automobile belonging to H. C. Morris, of 163 East Lake drive, parked in front of 82 North Pryor street early Sunday night, rolled down the street when the brakes became released and crashed into a large plate glass window at 77 North Pryor street, according to police reports.

Answered because you have not followed the rules. Allow a much longer time for an answer to appear in the column.

Don't forget to enclose the a. s. e. and two cents with your request for material, and an additional 10 cents in coin if you desire the booklet on reducing and gaining. If you ask for more than one article, better send a large and double-stamped envelope. It shall run these rules at stated time to remind you and to keep the newcomers in line.

Your message telling me how much you enjoy the column and how much benefit you derive from it, are an inspiration to me and to the followers, and make our work happier and, therefore, more helpful. So I feel like adding a last rule. Save some of your 200 words to continue this practice!

Editor's note: Dr. Peters cannot diagnose nor give personal advice. Your questions if of general interest, will be answered in the column, in turn. Requests for articles must be accompanied by a fully self-addressed stamped envelope and two cents in coin to cover cost of printing and handling. For the pamphlet on reducing and gaining, 10 cents, which fully a. s. e. must be enclosed. Address Dr. Peters in care of The Atlanta Constitution.

Miss Kiduk Kim
Contradicts M.E.
Bishop of Japan

Jerusalem, Palestine, April 1.—(AP) Miss Kiduk Kim, clad in bright silks of her native Korea, stood before the international missionary council and flatly contradicted statements made by the Methodist bishop, Kojoro Usaki, of Japan, that there was no racial discrimination in the minko's realm.

Miss Kim appealed to the Christian sympathy of the world for her country.

The incident was most dramatic of a session devoted to the discussion of race relations.

Den Boubou, of Manila, said that although the Philippines constitute the only officially Christian country of the Far East, it is one of the sorriest spots in the world and a football of American politics. He, too, pleaded for Christian prayers.

The negro problem of the United States was discussed by John Hope, president of Morehouse college, and Dr. W. A. McIntyre, territorial commander for 45 southern states, and the following members of the Atlanta division: Brigadier Harry H. Baynes, Colonel G. W. Penick, Lieutenant Colonel A. W. Baillie and Brigadier David Main.

Beginning today and continuing throughout next week, the Salvation Army will hold daily open-air services from 12 to 1 o'clock on the corner of Marietta and Broad streets, as a part of its program in observance of Holy Week.

Each day there will be short addresses by Salvation Army leaders and the staff band will play several numbers. Those who come will appear on the noon-day programs are Lieutenant Commissioner W. A. McIntyre, territorial commander for 45

southern states, and the following members of the Atlanta division: Brigadier Harry H. Baynes, Colonel G. W. Penick, Lieutenant Colonel A. W. Baillie and Brigadier David Main.

Knives Brother
After Row Over
Shooting of Dog

Moultrie, Ga., April 1.—(Special)—L. O. Olive, Colquitt county farmer, is near death in a hospital here tonight as the result of knife wounds received today in a fight with his brother, Clem Olive. Their differences arose over the killing Friday afternoon of a dog owned by L. O. Olive. Clem, who is 25, shot the dog when it attacked a cow that he owned.

L. O. Olive went to the field where his brother was at work to inquire about the shooting of the dog.

The fight, which may cost the life of L. O. Olive, followed the latter

was brought to Moultrie for treatment.

It required more than 100 stitches to sew up the wound in his side.

No warrant has as yet been issued in the case. Clem Olive said that he had been ill since January.

He is not his real name will just

what to do. She is a teacher in one of the public schools and a leader in a girls' camp during the summer.

Quietly the girl must be made to understand that anything which makes her friend unhappy is right.

Miss Brewster and Miss Webster understand that the expressions of a natural emotional love for one person who is many years older is childish. With the girl gently guided this way, the situation will quickly sort itself out.

Sometimes, perhaps, often, a "crush" is tied up with friendship, with love, with emotional life. One does not want to crush the "crush" and damage the "crushed" one. Many times a "crush" is due to a definite emotional need in the life of a particular child. A wise teacher will

YOUR BOY AND YOUR GIRL
BY ARTHUR DEAN, SC. D.

"Crushes."

Not a few of the letters from youth come from small children like this:

"I am in the ninth grade and have a teacher who means more to me than I can ever say. I think there could never be any body purer and dearer than she is. I love her. How can I tell her of it?"

"SWEET SIXTEEN."

Differing from our "Myriad-minded Shakespeare," the school-girl "crushes" are, fortunately, usually of an age and not too old at time. While we are easily shocked at such a logical problem, most of them are soon forgotten. The intelligent teacher is quick to recognize the situation and by fact and management turns the girl's mind into proper channels—wholesome sports and recreation and interest in studies.

Recently I received this letter:

"I've got a simply terrible crush on Miss Brewster, one of our camp leaders. She's a peach. I would do anything for her. I gather the choicest of her berries and eat them. I eat the biggest berries to give her, and I write her notes and slip them under her door. Of course, I love Mumsey, too, but I'm crazy over Miss Brewster."

This is not her name will just

what to do. She is a teacher in one of the public schools and a leader in a girls' camp during the summer.

Quietly the girl must be made to understand that anything which makes her friend unhappy is right.

The Constitution's Weekly Business Review

EDITED BY M. D. GLEASON

Style Show by Local Firm Received Wide Notice

"The progressive merchant will show the new shades and designs of this year's to be up with the times. This Easter time has a double significance for the people of this part of the south to begin to get the seed in the ground at the time of the Easter moon and if there was ever a time when the industrious planter, large or small, should get busy, this is that time."

"The use of merchants and planters this year are those who are the politicians to do the standing around, losing valuable time talking politics, and they themselves stay on the job promoting their own business or raising their crops. Then, when the smoke of the presidential battle clears away in November, the farmer and merchant will be back in the bank while the fellows who do nothing but talk politics will have nothing to show for the time they lost."

"Another thing that is of the utmost importance at this time to the entire south is the tendency to use more cotton goods and fabrics by people all over the country. We ourselves are overwhelmed with the evidence of this fact, when trade papers and the daily and Sunday press from all parts of the nation commented very liberally and complimented the A. M. Robinson company highly for the style and cotton fabric show we held recently."

"In addition to stimulating general use of cotton goods in their products, the press news caught the eyes of several leaders in the financial and textile fields and something like a dozen prominent leaders from even as far away as New York city have visited us during the past fortnight and pledged their support in encouraging American people to more wide use of cotton."

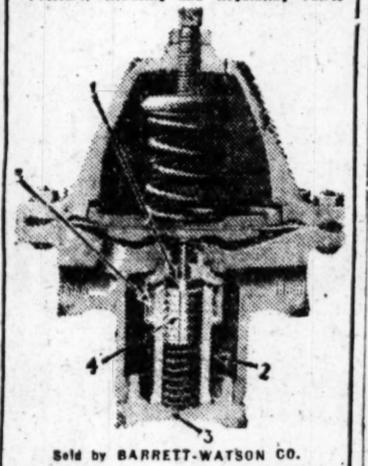

"So we say, as in the beginning, 'Pop up your stocks with new goods, get whatever kind of seed in the ground you are going to plant, let the 'know-it-all fellows' run the presidential elections, and whenever you are in Atlanta drop by and see us. We may be helpful to you.'

AWARDED DAMAGES FOR DEATH OF SON

Damages amounting to \$13,500 have been awarded to Mrs. Almon Fowler, of Lawrenceville, Ga., in Atlanta city court for the death of her son, Felton Fowler, 10 years old, killed by a laundry truck.

Harwell, Fairman and Barrett, local attorneys, represented Mrs. Fowler.

RECORD-BREAKING STOCK ACTIVITY

New York, April 1.—(P)—The record-breaking activity of the stock exchange was reflected in the curb market last week, with new records made for breadth and volume of sales. More than 1,000,000 shares changed hands, and Monday and Friday, while Saturday's half-day trading set new record for total sales of 174,800 shares. Nearly 700 different issues were traded daily, and on several days some \$40,000,000 worth of bonds changed hands.

In fact, March was a record-breaking month on the curb market. On March 15 total sales reached 1,001,000, the first million-share day since March 3, 1926. On March 16 a new record of 1,267,000 shares was reached,

while on March 26 a total of 1,000,000 and on March 30 a total of 1,083,000 shares changed hands. The half-day total sales record of 460,100 shares, established last January 7, was broken March 17 with a new high total of 460,300 shares. This in turn was broken yesterday, when 475,500 shares were exchanged.

Price Trend Upward.

The price trend during the week was also steadily upward, with industrial specialties leading the advance. Safeway Stores registered a net gain for the week of 78 points. Blockade up 33, and there were such gains as 31 points by Casein, 25 by Tubize Art Silk, 21 by Sanitary Grocers, and 18 by Balaban & Katz. More than 100,000 shares of Canadian Macaroni changed hands, and were up 20 points. Banister's rapidly resumed its upward trend on the strength of big gains in Bank of America stock, closing the week up about 5 points net. Early in the week motor shares were strong, but profit taking later caused recessions. Ford of Canada closed up 6 points net and Auburn advanced nearly 10, while

Pines' Winterfront A scored an advance of more than 12 points.

Public utilities were steadily bought, but profit taking at the higher levels tended to check with advances. United Light and Power A, which had the heaviest turn over, however, advanced 5 points. Similar gains were made by American Superpower A and B, Mohawk and Hudson Power and Puget Sound. An exchange of 25 shares lifted Fall River Light 18 points. The Blackstone Valley issues slumped 7 points.

Improvement in Oils.

Improved outlook in the oil industry and announcement that Mexican oil regulations had been amended caused a rise in the prices of oils and pipelines. Irregular tendencies were apparent late in the week, however. Gains of up to 4 points were recorded by the companies of Kansas, Maryland Oil of Mexico, Tidal Orange and Humble. Profit taking caused recessions in the pipe lines, Northern dropping more than 10 points, Illinois 3 and Prairie 2.

Nichols 6s, with a gain of more than 10 points, Electric Refrigeration 6s, up 5, and Public Serv-

Associated Gas and Electric System

Accomplishments of Refinancing

By exchanges, conversions or refunding operations, \$70,000,000 par value of underlying securities in the Associated System have been retired. This is part of a comprehensive program designed to simplify the Company's capital structure, increase its credit, and effect savings in interest charges.

For the holder of Associated Gas & Electric securities, it has the following advantages:

1. Substantial savings through elimination of high coupon bonds and high dividend rate preferred stocks of subsidiary properties.
2. Savings in taxes, franchise charges and personnel through grouping of subsidiaries.
3. Savings in bookkeeping and accounting expense through retirement of numerous underlying securities.
4. Acquisition of 100% ownership of all properties and elimination of diverse minority interests in subsidiaries.
5. Elimination of numerous mortgage securities. Such remaining issues total less than 12% of the entire capitalization. Many properties are entirely free of debt.
6. Elimination of early bond maturities, leaving the management free to devote its energies for many years to come to building up the business.
7. Increase in the credit standing of the Associated System, as evidenced by recent financing through 41% bonds against 51% bonds a year ago.
8. Creation of a large reservoir of mortgage credit for use to expand and develop the properties if essential.
9. The securities of the Associated Gas & Electric Company have been brought close to the actual physical property and receive all the income from operations without it first being drained by underlying company prior interest and dividend deductions.

Further retirements of underlying and higher interest issues are contemplated. Proceeds of the current offering to stockholders of \$50,000,000 Convertible Debenture 4% will be used largely for this purpose and to the extent that retirements are effected will still further strengthen the investment position of the Company's securities.

\$50,000,000

American Gas and Electric Company Gold Debentures, 5% Series Due 2028

To be dated May 1, 1928

Business and Territory

Purpose of Issue

Earnings

Equity

Finances

From the letter of Mr. Frank B. Ball, Vice-President of the Company, we summarize as follows:

American Gas and Electric Company controls a diversified group of electric power and light companies operating in nine states and serving, directly or indirectly, 870 communities having an aggregate population estimated at 2,690,000. The principal communities served by subsidiaries include Scranton, Pa.; Wheeling, Huntington, Charleston and Bluefield, W. Va.; Roanoke and Lynchburg, Va.; Kingsport, Tenn.; Canton, Lima, Portsmouth, Steubenville and Newark, Ohio; South Bend, Muncie, Marion and Elkhart, Ind.; Benton Harbor and St. Joseph, Mich.; Atlantic City, N. J.; and other important communities. About 88% of the gross earnings of subsidiaries for the twelve months ended December 31, 1927, was derived, and as a result of the recent sale of certain railway and other properties, over 97% is now derived, from electric power and light business.

Proceeds from the sale of this issue of Debentures will be used in connection with the redemption on May 1, 1928, of all of the \$46,904,000 Six Cent. Gold Debenture Bonds of this Company now outstanding with the public.

Earnings of the Company as shown in the Vice-President's letter for the year ended December 31, 1927 (including undistributed income of subsidiaries after provision for renewals and replacements), applicable to interest on Funded Debt of American Gas and Electric Company, were equal to more than 7 times the annual interest requirements on these Gold Debentures.

These Gold Debentures will be followed by Preferred and Common Stocks, which have a present market value aggregating approximately \$300,000,000. Dividends have been paid regularly on the Preferred Stock of the Company and its predecessor of the same name since May, 1907. Cash dividends have been paid on the Common Stock since 1910 plus substantial additional dividends in common stock.

The finances of the American Gas and Electric Company and of its subsidiaries have always been handled through the Electric Bond and Share Company. Mr. S. Z. Mitchell, President of the latter company, is Chairman of the Board of Directors of the American Gas and Electric Company.

All legal matters in connection with the issue of these Debentures will be passed upon by Messrs. Winthrop, Stimson, Putnam & Roberts of New York, and for the Company by Messrs. Simpson, Thacher & Waite of New York.

These Debentures are offered when, as and if issued and received by us and subject to approval of proceedings by counsel

at 101 and accrued interest, to yield-about 4.95%.

WEEKLY REVIEW OF COTTON MARKET

EXPERTS ON CANE TO BATTLE PESTS

New Orleans, La., April 1.—(P)—The price level in the cotton market has experienced a period of relative stability and comparative dullness. In fact it has been a typical between-seasons market with traders uncertain as to what view of the future to take and consequently on which side of the acreage and start of the new crop. Prices fluctuated within a comparatively narrow range, improving early in the week owing to too much rain, but the eastern and too low temperatures, the west, which interfered with planting and interfered with the germination of seed, where already planted owing to cold soil. Later in the week the market eased off on liquidation but did not do so well as the earlier gains as the week closed practically unchanged compared with the preceding Saturday.

While prices eased off owing to liquidation at the close of the week itself, the market improved for better weather over Sunday and some talk of an easier spot basis in the interior, the decline did not go very far as prices were supported in anticipation of a bullish official report. The market, however, was still on the decline, but the gains made in the previous week were still in evidence.

Should this report prove as bullish as expected the market is apt to improve at least temporarily. It is known that the weevils entered hibernation in large numbers and although no doubt a good many of them have destroyed man of the best, it is nevertheless believed that there has been a numerous survival which will result in an initial extensive infestation of the cotton fields.

The following shows the high, low and closing sales of 6 per cent increase per passenger kilometer and a proportionate increase for hauling freight.

Although the reichsring recently adopted a resolution censuring the railroads, the railway directors, which is also opposed by the Prussian government, the measure is by no means buried and is likely to continue to disturb the business world as it is conceded that the contention of the directors that an increase is necessary in order to cover the cost of hauling freight is correct.

Should this report prove as bullish as expected the market is apt to improve at least temporarily. It is known that the weevils entered hibernation in large numbers and although no doubt a good many of them have destroyed man of the best, it is nevertheless believed that there has been a numerous survival which will result in an initial extensive infestation of the cotton fields.

The following shows the high, low and closing sales of 6 per cent increase per passenger kilometer and a proportionate increase for hauling freight.

While the price of sugar cane was indigenous to New Guinea, and said that the purpose of the expedition was to find a type of plant "commercially resistant to certain introduced diseases, principally mosaic, which have caused great losses to cane growers of Louisiana and the south."

"We expect to find literally hundreds of varieties which we will bring to America to test under our conditions," he said. "We do not know for sure on which will resist mosaic."

He said that as the domestic grown types had originated in New Guinea it was very probable that diseases of the plants introduced into America had originated there also, adding that the new sugar cane varieties may have produced a resistant type.

"By Darwin's law of the survival of the fittest, it is likely that certain types of New Guinea sugar cane may have developed an immunity or tolerance to certain introduced diseases, principally mosaic, which have caused great losses to cane growers of Louisiana and the south."

"We expect to find literally hundreds of varieties which we will bring to America to test under our conditions," he said. "We do not know for sure on which will resist mosaic."

The expedition will include 30 or 40 experts to conduct the tests of testing apparatus through the dense growth of the eastern part of the island. In addition to the plane, which will be equipped with pontoons, three small boats with outboard motors will be used to transport the party.

New York, April 1.—(P)—Some

what irregular conditions were present in the business situation last week as the attention of the country was centered on the stock market with its most remarkable "bull movement" in history. Despite spottiness, however, an atmosphere of optimism prevailed, and there were predictions that the market would rise.

The following table shows the high, low and closing sales of 6 per cent increase per passenger kilometer and a proportionate increase for hauling freight.

Philadelphia, April 1.—(P)—Gross operating revenue and net income for 1927 were \$10,948,200, a decrease of \$4,085,800, or 27.2% from the previous year. The net income was \$30,651, 253, a decrease of \$6,152,892.

The report stated that "passenger traffic and revenue continue to show declining figures, the result of the steady and rapid increase of automobile traffic, both private and public."

The report gave figures for 11 years to show that every year, with the exception of 1923, there was a decrease in the number of passengers carried compared with the previous year.

Nevertheless, there were some signs of accumulation to supply the usual reinvestment demand at the end of the quarter, in anticipation of large dividends and interest payments during the present month. The statement of Secretary Mellon that current large exports of gold are unlikely to affect the credit situation adversely gave some stimulus to this phase of purchasing along toward the end of the preceding month.

Increase in Employment.

Further increase in employment in Detroit indicated another stepping up of automobile production, while the announcement of new models by some companies added some color to the scene.

The automotive industry during the first quarter was running ahead of last year. Some of the kindred lines, however, were rather slow, particularly rubber, which had been in a time of important developments.

The fuel industry continued to make a poor showing in most areas, considerable falling off in orders, resulting from the approach of spring and the failure to reach agreement on wages in the central district were particularly bad. Cold weather in the north, however, has given impetus to the fuel business in that section.

Little of importance developed in the petroleum industry in the domestic field, but the settlement of the long dispute over the Mexican oil law will have a greater effect upward. Lumber producers gave cheerful reports of current and prospective business, particularly on the Pacific coast. Gradual expansion, and some firming of prices were seen in the Mississippi valley lumber areas. Carloadings presented a less favorable picture with decline in the third week of March from both the preceding period and the corresponding time of last year.

Gold exports, incidentally, reached the largest volume for a single month in all time during March, with a total movement of more than \$90,000,000. About a third of this aggregate, however, was in the form of gold already earmarked for the French central bank, and it is estimated that the remainder will fall sharply from the figure of the preceding month.

Effect on New Issues.

Present high prices in the listed market have been exerting a direct bearing upon new issues. Bankers who have experienced considerable difficulty in getting the new issues to come to terms with prospective borrowers who seek to obtain for their new bonds the largest possible price, and more frequently than not, higher prices than those care to pay. Hence, there were large loans which have been negotiated at rates of 6% and 7% on \$100,000 in the corresponding period of last year.

Effect on New Issues.

Hence, there were large loans which have been negotiated at rates of 6% and 7% on \$100,000 in the corresponding period of last year.

Meanwhile the demand for new bonds appeared to continue in a healthy state. New offerings usually are readily sold, as was attested last week by the prompt over-subscription of the \$35,000,000 issue of Columbia issue, and several smaller issues.

ORGANIZE FORUM FOR FREE DEBATE

Orlando, Fla., April 1.—(P)—Ed Boykin, 18, of Mount Dora, was injured fatally and two others were injured when the automobile in which they were riding overturned on the highway between Mount Dora and Apopka, early today.

Edwin Hobson, frame, and Arthur Boughty, who was brought to a local hospital where Boykin died shortly after being admitted.

Boughty, who was driving the car, was discharged from the hospital this afternoon. From his side several cuts and bruises and will be confined at the hospital for several weeks.

Boughty declared another car with bright lights crowded his automobile off the highway into a ditch, where it turned over.

The Youth Forum is a meeting place for free and untrammeled discussion, conducted by and for young people, officers of the body explained.

Meetings will be held on alternate days, night, in the Chamber of Commerce building.

RAIL FARE RAISE DISTURBS BERLIN

New Orleans, La., April 1.—(P)—In an effort to find a sugar cane plant able to withstand diseases which have ravaged present domestic types, three internationally known experts in sugar cane breeding will shortly set out on an airplane expedition to New Guinea under the auspices of the department of agriculture.

The men are Dr. A. W. Brundage, senior pathologist of the office of sugar plants in the department; Dr. Jakob Jeswiet, professor at the University of Wageningen, Holland, and director of that country's sugar experiment station at Java, and C. E. Pemberton, Hawaiian entomologist.

Dr. Jeswiet will arrive in New York on April 1.

Washington, April 1.—(P)—The federal conservation board, which is con-

ducting an inquiry into the produc-

tion, distribution and consumption of oil, will not sponsor a definite legis-

lative program until all available in-

The Story of Fort Phil Kearney: Part XVI

A Night of Dread.

by J. CARROLL MANSFIELD

THE MASSACRE OF CAPTAIN FETTERMAN AND HIS EIGHTY-ONE COMRADES FILLED ALL IN FORT PHIL KEARNEY WITH DESPAIR. A FOURTH OF THE MEN AVAILABLE FOR ACTIVE SERVICE HAD FALLEN IN THAT FATAL AMBUSH, AND GEN. CARRINGTON WAS CONVINCED THAT THE SIOUX WOULD PRESS THEIR ADVANTAGE AND MAKE AN ATTACK ON THE FORT ITSELF.

IHAT NIGHT WAS ONE OF DREAD FOR THE LITTLE GARRISON. FEW WENT TO BED, AND THOSE WHO SLEPT LAY DOWN FULLY DRESSED, WITH THEIR WEAPONS CLOSE BEside THEM, AND WITH THE EXPECTATION THAT THEY WOULD BE AWAKENED ANY MOMENT BY THE WAR WHOOPS OF THE SAVAGES.

© 1912 NICHOLAS NICHOLAS SYNDICATE

THE GUARDS WERE DOUBLED AND ALL PREPARATIONS MADE FOR A DESPERATE DEFENSE. HOURS PASSED, FILLED WITH AGONIZING SUSPENSE, BUT THOUGH THE GLEAM OF INDIAN CAMPFIRES COULD BE SEEN, THE ATTACK DID NOT COME.

CONTINUED TOMORROW.

THE NEXT MORNING DAWNED BITTER COLD AND WITH INDICATIONS OF A COMING BLIZZARD. SCOUTS WERE SENT OUT AND ON THEIR RETURN REPORTED THAT THERE WAS NOT A SIOUX IN SIGHT.

CONTINUED TOMORROW.

Atlanta To Vote Opinion SECRET BALLOT TO FOLLOW PUBLIC DEBATE On Companionate Marriage

Does Atlanta favor companionate marriage? The mooted question will be once and for all settled Tuesday night, when the audience at the city auditorium will decide whether Judge Lindsey has written numerous magazine and newspaper articles on the subject besides his book.

Dr. Houghton, one of the leading ecclesiastical figures of the city, has made a clear stand on the subject, and has acquiesced himself thoroughly with Judge Lindsey's argument in favor of companionate marriage.

Whether or not the city favors the subject, it is certainly interested in the measure, as the unusually heavy demand for seats for the debate on the opening day Saturday of "Clean-Up and Paint-Up Week."

"Ward organizations which already have been formed are going ahead rapidly with the work of clearing the city of surplus crops, the repainting of houses and other buildings and otherwise putting Atlanta in condition to welcome springtime in fresh attire," Mrs. Little said.

"Although the climax of the campaign will be clean-up and paint-up week, when the work of clearing the city will be completed, the measure will register its influence on the blank and deposit in ballot boxes throughout the city to be voted at 4 o'clock this afternoon, it is announced by Mrs. J. R. Little, director general.

Each organization will conduct an intensive drive for a cleaner and brighter Atlanta, culminating in "Clean-Up and Paint-Up Week."

"Ward organizations which already have been formed are going ahead rapidly with the work of clearing the city to be cleaned up in one week, even with the cooperation of all citizens," Mrs. Little said. "The work will be done in time to have it for two weeks, with encouraging result."

The pageant and entertainment at the Wren's Nest, old home of Uncle Remus, in West End, at 3 o'clock Friday afternoon, will mark the beginning of the last stage of the campaign, which has been held for two weeks, with encouraging result."

Besides the three daughters, Misses Annie Louise, Bertie and Alice Nicholson; son, Paul Nicholson, a brother, Julius Griffin, and a sister, Mrs. Amos Hall, of Athens, Ga.

**MRS. R. H. NICHOLSON
FUNERAL IN ATHENS**

The body of Mrs. Robert H. Nicholson, 31, who died Saturday night at a private sanatorium after a short illness, will be carried at 11:15 o'clock this morning to Athens, Ga., for funeral and interment, with Ed Bond and Condon company in charge.

Besides the three daughters, Misses Annie Louise, Bertie and Alice Nicholson; son, Paul Nicholson, a brother, Julius Griffin, and a sister, Mrs. Amos Hall, of Athens, Ga.

"CLEAN-UP" CHIEFS WILL MEET TODAY

Farm Relief Bill Is Before Senate For Final Action

Atlanta's clean-up and paint-up campaign organization will be extended into each of the 12 wards of the city at a rally of the general committee representing the Atlanta Women's club and chamber of commerce, to be held at the chamber of commerce at 4 o'clock this afternoon, it is announced by Mrs. J. R. Little, director general.

The campaign organization will conduct an intensive drive for a cleaner and brighter Atlanta, culminating in "Clean-Up and Paint-Up Week."

"Ward organizations which already have been formed are going ahead rapidly with the work of clearing the city of surplus crops, the repainting of houses and other buildings and otherwise putting Atlanta in condition to welcome springtime in fresh attire," Mrs. Little said.

"Although the climax of the campaign will be clean-up and paint-up week, when the work of clearing the city will be completed by Mr. Little, his message will be registered on the blank and deposit in ballot boxes statutorily at exits. The results will be compiled and announced in the news papers."

In view of the heavy demand, early reservation of seats for the occasion is urged. They may be obtained at the Cable Piano company, North Broad street and Phillips and Crew Piano company, on Peachtree street.

'PUSSYFOOT PASTORS' SCORED BY MORRISON

Professor J. W. Boyd, engineer, succumbs

Professor Joseph W. Boyd, former assistant state highway engineer, and widely-known educator, died late Sunday night at the residence, 541 Broyles street, after a long illness.

Professor Boyd for many years was professor of higher mathematics and astronomy at the North Georgia Agricultural college, Dahlonega.

He was connected with the state highway department when that body was organized and was for long actively engaged in the promotion and building of Georgia roads.

Dr. Morrison delivered three addresses Sunday and spoke to more than 5,000 persons. Standing room in the large auditorium was at a premium Sunday night and scores were turned away because of lack of room.

Playing "pussyfoot pastors" who lack the moral stamina to take a fearless stand against sin and the modern tendency to disregard the teachings of the Bible for righteousness, Dr. Morrison declared "American revival of religion, a revival of the nation in the ways of God, a revival of schools training along moral lines, a revival of law enforcement and a revival of cavalry which will teach modern youth to respect the sanctity of womanhood."

"The restraining influence of law enforcement is the greatest detriment to sin. It will cause vandals to respect law-abiding people, to refrain from breaking laws when the violator knows that swift justice will be meted out to him. When his day comes, he courts become mere mockery of justice and lawbreakers are permitted to escape with only partial payment to society for the sins they have committed against it."

"There is less modesty, less reverence, less abidance to the laws of God and man in America at this time than at any other in this nation for the past 100 years."

Dr. Morrison has spoken twice daily to capacity houses for the past two weeks at St. Paul auditorium, where he has filled the pulpit of Dr. B. F. Fraser, pastor. W. H. Timms, prominent business man, has directed the musical program.

HUSBAND OF 70 KILLS HIS WIFE IN JEALOUS RAGE

St. Louis, April 1.—(AP)—Enraged because she had been seen talking to another man at the Jewish Orthodox Old Folks Home, Sam Balin, 70-year-old retired merchant, stabbed his wife, Paslie, 56, to death today and then attempted to end his own life by slitting his throat. He was in a critical condition.

NON-STOP FLIERS BACK AT HOMES AFTER HARD GRIND

Detroit, April 1.—(AP)—Eddie Stinson and George Haldeman, who set up a new airplane endurance record Friday, arrived here tonight from Jacksonville, Fla., where they hopped off this morning. They reported an uneventful flight.

WATCHMAN BURNED IN LAMP EXPLOSION

Pouring gasoline into his lantern in mistake for kerosene, set off an explosion and serious burns about the right eye of W. H. Bailey, nightwatchman for the Willingham Lumber company, Sunday night. A fire also started in the sizing room of the lumber company which did little damage, however.

Bailey was carried to a nearby drug store, where first aid treatment was given to his burns and he later returned to his home. His condition was not reported, but it was learned that he was formerly of Red Oak, Ga., having recently moved to Atlanta.

DRIVER DISAPPEARS AFTER COLLISION

Northampton, Mass., April 1.—(AP)—The condition of Mrs. Lemira Goodridge, mother of Mrs. Calvin Coolidge, was described as "unchanged" today by Dr. E. F. Hayes, her physician. He said yesterday that the patient was resting fairly comfortably.

Mrs. Coolidge visited Dickinson hospital during the morning and remained at her mother's bedside until early afternoon. When she left she told attendants she would probably return later in the day.

MOTHER-IN-LAW OF COOLIDGE IS STILL UNCHANGED

Northampton, Mass., April 1.—(AP)—The condition of Mrs. Lemira Goodridge, mother of Mrs. Calvin Coolidge, was described as "unchanged" today by Dr. E. F. Hayes, her physician. He said yesterday that the patient was resting fairly comfortably.

Mrs. Coolidge visited Dickinson hospital during the morning and remained at her mother's bedside until early afternoon. When she left she told attendants she would probably return later in the day.

DRIVER DISAPPEARS AFTER COLLISION

A man alleged to have been R. E. Thompson, of Lawrenceville, Ga., abandoned his car with word that he was going to the hospital, before the arrival of police Sunday night after a collision at the intersection of Hunt street and Ponce de Leon avenue with a car driven by E. S. McEvitt, 582 Peachtree street.

A check at a late hour Sunday night did not find the man at any of the hospitals.

Bystanders who saw the collision said that it was caused by the man said to be Thomas suddenly swerved from the McEvitt's car. Mr. McEvitt, who was riding with his husband, was badly shaken up and received several bruises as a result of the collision. Police Officers W. L. Tyson and C. R. Handon are investigating.

FILLING STATION HOLD-UP NETS \$5.31

E. F. Ware, manager of the Gulf Refining station on the corner of Houston street and Piedmont avenue, was held up at the filling station and robbed of \$5.31 Sunday night by an unidentified white man who escaped without being apprehended. Call Officers J. A. Brown and B. E. McCrary are investigating.

Don't Want Child.

Savannah, Ga., April 1.—(AP)—A 10-year-old girl who had been arrested for loitering telephoned they did not care what happened to her. Recorder Schwartz "fined" three attorneys who were in the courtroom and himself for contempt of court and paid the girl's way home.

Farm Relief Bill Is Before Senate For Final Action

Washington, April 1.—(United News)—The McNary farm relief bill providing for creation of a federal farm board to aid in the disposition of surplus crops will be debated this week in the Senate.

Senator McNary, republican, Oregon, its author, has announced he will bring the bill before Congress at 2 p.m. Monday. He is confident of early passage.

Five rebels were killed and two wounded. One of the dead is known to have been one of the chief lieutenants of August Sandinista although the name of this leader was not given out.

For military reasons many headquarters also are concealing the exact locations of the two contacts.

The patrols captured 21 horses and mules, 16 saddles, two rifles, several machetes and a number of bombs.

DYNAMITE BLAST KILLS GEORGIAN AT HAWKINSVILLE

Hawkinsville, Ga., April 1.—(AP)—Scattering what is believed to have been the largest band of Sandinistas encountered in more than a month, patrols of United States marines and two sharp skirmishes today in the region about 50 miles north of Kinotepe. There were no marine casualties.

Five rebels were killed and two wounded. One of the dead is known to have been one of the chief lieutenants of August Sandinista although the name of this leader was not given out.
